HISTORY OF THE MASTER PLAN AND THE TASIS FAMILY OF PATRONS

In 1996, TASIS engaged classical architect and urban designer David Mayernik to develop a Master Plan for the TASIS campus. The result is a long-term plan tailored to the needs of our School which also serves as a model for the world as an ideal academic community. The guiding idea of the Master Plan is to create a village environment to foster a sense of community, complete with green spaces, open piazzas, and beautiful, multifunctional buildings. TASIS has become renowned as an example and advocate of sustainable campus design.

The successful development of the Global Village over the past twenty years has been possible thanks to the most generous and ongoing support of parents, friends, and alumni. It is our pleasure to recognize and thank our donors who continue to enrich and support the vision of Mrs. Fleming by building a campus of great beauty for the positive shaping of current and future generations of students in the highest and noblest traditions of civilization. Please join the TASIS family of Patrons.

The TASIS Global Village is an internationally recognized model of stewardship and sustainability. Completing the Global Village requires dedication, hard work, and financial support over many years. The challenge is enormous and exciting! Since its founding in 1956, TASIS has established its reputation as the oldest and finest American boarding school in Europe. As we realize our Global Village Master Plan, we strive to also have the most beautiful campus in Europe: a shining light for Ticino and a proud expression of America's contributions to international culture.
