

The Village School Virtual Open House

Middle School Program (grades 7 & 8)

The Middle School Program provides a challenging and supportive environment in which the adolescent may explore, question and formulate principles related to academic, personal and social growth.

- Intellectually stimulating prepared environment
- Grades and tests introduced at this level
- Focus on research projects and oral presentations
- Critical thinking, decision making and personal involvement in their education
- Students utilize a 3 week planner that outlines assignments to encourage independence and develop time management skills
- 10 to 1 teacher student ratio

Program Goals

- The Middle School program aims to prepare students for life beyond The Village School by providing opportunities to develop needed skills, explore new topics and develop personal interests.

- effective note-taking,
- test taking in a variety of formats
- active listening and debates
- reading for meaning analysis,
- time and information management
- study habits for quizzes, topic tests, midterm and final exams
- Communication skills
- Public Speaking/oral presentations
- Research and reporting skills
- Writing in a variety of formats
- Integration across subject areas

Academic Areas of Study

History

- American History I
- American History II
- Current Events

Language Arts

- Literature
- Writing
- Grammar
- Vocabulary

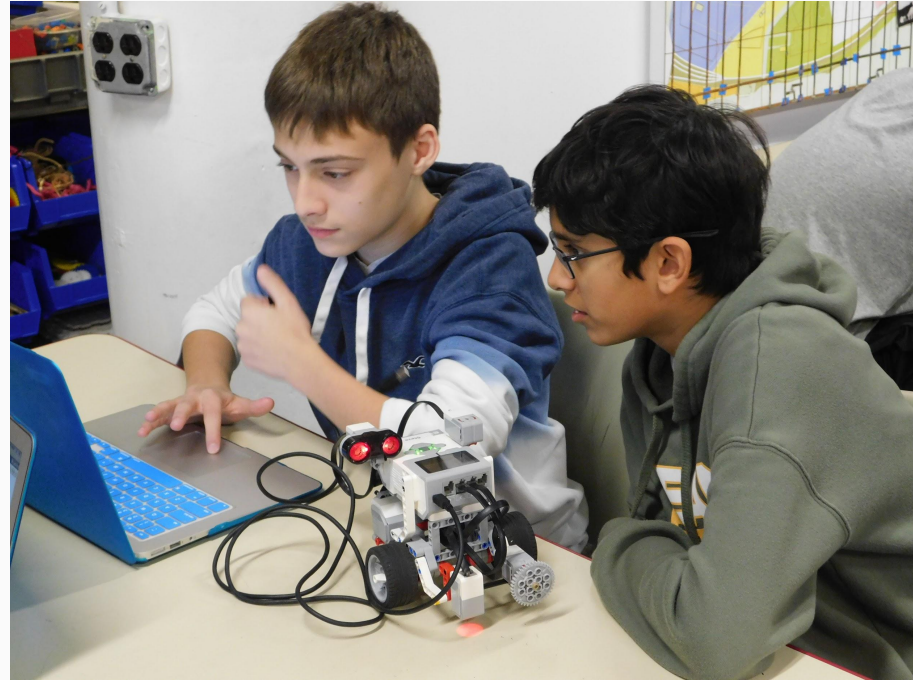

Science

- Physical Science
- Life Science

Mathematics
