

International School of Kenya

Empowering students to create solutions for tomorrow's challenges

July 7, 2020

Subject: COVID-19 Update #20 - MoE Announcement Update

Dear ISK Community,

We would like to update you with information based on our understanding of the recent Ministry of Education communication regarding schools reopening in January 2021. Our current understanding of the announcement relates specifically to the Kenyan public school system. We do not believe this applies to universities, technical schools, colleges or to those schools delivering a different curriculum, such as international schools.

We will be updating you as soon as the impact on schools like the International School of Kenya has been clarified.

Government of Kenya Directives Updated This Past Weekend

Per the July 6th announcement, the GoK announced that domestic travel and international travel will be opening on July 15 and August 1 respectively. Intra-county is open as of July 7, however, nightly curfew hours continue from 9:00 pm to 4:00 am.

Reopening Task Force: Stages of Action and Development

The extended Reopening Task Force met this week again to continue the process of detailing the plans for reopening ISK to on-campus learning this coming September 1. In late July, we plan to gather additional feedback for understanding of our draft detailed plan with parent, student and faculty readers that have already volunteered.

Please stay tuned for more information and stay well.
