All students have to meet state requirements for vaccinations as a condition for enrollment in the St. Paul’s Schools (“SPS”).

SPS will only accept medical exemptions with appropriate board-certified medical physician written documentation.

Families must provide written documentation of compliance with vaccination requirements.

Any family with concerns or questions about the timing for vaccination requirements should contact our SPSG school nurse, Jill Stallings at jstallings@stpaulsmd.org or 443-632-1021, promptly.
