

Student Device Damage and Loss Protection Program

This year, all students in grades K-12 have the opportunity to check out a district-owned device for use at school and at home. Anticipating that all students will get a district-owned device, the district adds a fee of \$20 to students' Online Payment accounts (maximum fee of \$60 per family per school year) to enroll them in the Damage and Loss Protection Program. **This fee is waived for families who qualify for the free or reduced meal benefits program and have completed the "Permission to Share" form.** Students need to pay the assigned fee prior to any damage or loss claims to be eligible for the Protection Program coverage and no later than 30 days after they begin school.

Students may choose to decline coverage, but this is not recommended unless you won't be checking out a device, because the family is assuming full responsibility for any costs due to damage, loss or theft. These costs could be as much as \$300 per incident, regardless of how it happens.

More information about the Damage and Loss Protection Program, including what it covers, can be found on the BSD website.

Please choose one of the following two options:

- Damage and Loss Protection Coverage** - limits family liability from accidental damage or loss of a District-owned device.
 - Choose this option if the student is checking out a district-owned device.
 - Make \$20 payment through the [District Online Payment System](#) or to the school bookkeeper.
 - Note: For parents enrolling students who are new to the district, your online payment account will not be available for 24 hours.
 - Students are not covered until the payment is made.
 - Income Based Waiver: Any students who qualify for the free or reduced meal benefits program should select this option, and the fee will be waived (the [Permission to Share Form](#) must be completed for this to happen automatically).
 - If you have payment questions, please see the school bookkeeper (high school) or office assistant (elementary and middle school).

- No Coverage Needed (Bringing Your Own Device)**
 - Choose this option if the student will be using a personal device and not checking out a district-owned device.
 - **NOT RECOMMENDED FOR STUDENTS USING DISTRICT-OWNED DEVICES.**
 - By choosing "No Coverage Needed" and checking out a district-owned device, the family is agreeing to be responsible for covering any costs from damage or loss-regardless of how it occurred-which could be as much as \$300 per incident.

Student ID:	Parent Signature:
--------------------	--------------------------

Note: This form needs to be filled out for each student if you have more than one student in the school district.
