

# Landon School | ATTENDING SCHOOL ON CAMPUS

	Condition/Symptoms	Protocol
A	<b>Student/employee has one or more of the symptoms of COVID-19*</b>	<ul style="list-style-type: none"> <li>• Please consult your doctor or pediatrician or, in an emergency, call 911.</li> <li>• Written clearance by a healthcare provider is required to return to school.</li> <li>• Without that clearance, student/employee must remain at home for <i>at least ten (10) calendar days from the onset of the symptoms</i>, and until they have been without symptoms for <i>two (2) days and without fever for three (3) days without the use of fever reducing medications</i> (except loss of smell/taste, which can take longer to come back).</li> <li>• Observe the <a href="#">self-isolation protocol</a> issued by the CDC.</li> <li>• Distance learning/teaching.</li> <li>• If a COVID-19 test is performed, please refer to <b>Scenario C or D</b> depending on the result. Please inform the School Nurse and your Division Head/Supervisor.</li> </ul>
B	<b>Student/employee is well but someone else in the household has one or more of the common symptoms of COVID-19*</b>	<ul style="list-style-type: none"> <li>• Please consult your doctor or pediatrician or, in an emergency, call 911.</li> <li>• Written clearance by a healthcare provider is required to return to school.</li> <li>• Without that clearance, student/employee must remain at home for <i>at least ten (10) calendar days from the onset of the symptoms</i>, and until they have been without symptoms for <i>two (2) days and without fever for three (3) days without the use of fever reducing medications</i> (except loss of smell/taste, which can take longer to come back).</li> <li>• Observe the <a href="#">self-isolation protocol</a> issued by the CDC.</li> <li>• Distance learning/teaching.</li> <li>• If a COVID-19 test is performed, please refer to <b>Scenario C or D</b> depending on the result. Please inform the School Nurse and your Division Head/Supervisor.</li> </ul>
C	<b>Student/employee has tested positive for COVID-19, regardless of symptoms.</b>	<ul style="list-style-type: none"> <li>• Please consult your doctor or pediatrician or, in an emergency, call 911.</li> <li>• Written clearance by a healthcare provider is required to return to school.</li> <li>• Student/employee to remain home for the number of days specified by your doctor and <i>at a minimum ten (10) calendar days since symptoms</i>, if present, first appeared. Please see CDC guidance on <a href="#">ending home isolation</a>.</li> <li>• Do not return to school until have been symptom- and fever-free for 24 hours without the use of fever reducing medications.</li> <li>• Distance learning/teaching.</li> <li>• Please inform the School Nurse and your Division Head/Supervisor immediately of the diagnosis.</li> </ul>
D	<b>Student/employee has one or more of the common symptoms of COVID-19* but has tested NEGATIVE for COVID-19.</b>	<ul style="list-style-type: none"> <li>• Please consult your doctor or pediatrician or, in an emergency, call 911.</li> <li>• Written clearance by a healthcare provider is required to return to school.</li> <li>• Student/employee must remain at home without symptoms for <i>at least three (3) days including fever free without the use of fever reducing medications</i> (except loss of smell/taste, which can take longer to come back).</li> <li>• Please share the negative test result with the School Nurse.</li> <li>• Distance learning/teaching.</li> <li>• Also please note that the so-called “rapid tests” (antigen tests) have proven to be unreliable so a negative result using these is not conclusive, making above additional requirements necessary. The diagnostic (or viral) test is preferable.</li> </ul>
E	<b>Student/employee has had close personal contact with someone who has tested positive for COVID-19.</b>	<ul style="list-style-type: none"> <li>• Please consult your doctor or pediatrician or, in an emergency, call 911.</li> <li>• Written clearance by a healthcare provider is required to return to school.</li> <li>• Student/employee not to come to school for <i>fourteen (14) calendar days following exposure to last contact with the affected person</i> with whom child/employee has had contact.</li> <li>• Close contact per CDC guidelines is generally deemed to be less than six feet for more than fifteen minutes.</li> <li>• Observe the <a href="#">self-quarantine protocol</a> issued by the CDC and other family members should avoid close contact with you.</li> <li>• Distance learning/teaching.</li> <li>• Only return to school if no symptoms develop during that time.</li> </ul>
F	<b>Student/employee has a pre-existing medical condition (e.g., high blood pressure, cardiovascular disease, diabetes, chronic respiratory disease or cancer), which puts them in the special risk categories for COVID-19.</b>	<ul style="list-style-type: none"> <li>• Follow advice of your doctor and/or pediatrician and inform Division Head/Administrator and School Nurse if the doctor’s advice is to remain at home.</li> <li>• If counsel is to remain at home, provide School Nurse with written doctor’s recommendation.</li> <li>• Distance learning/teaching.</li> </ul>
G	<b>I have a family member living within my household who is in the special risk categories (over 65 and/or chronic medical condition making the person immune-compromised).</b>	<ul style="list-style-type: none"> <li>• Follow advice of your doctor and/or pediatrician and inform Division Head/Administrator and School Nurse if the doctor’s advice is to remain at home.</li> <li>• If counsel is to remain at home, provide School Nurse with written doctor’s recommendation.</li> <li>• Distance learning/teaching.</li> </ul>

\*Common symptoms of COVID-19: cough (usually dry), fever (according to the American Academy of Pediatrics, fever is considered to be a temperature above 100.4 F) or sensation of fever, sore throat, difficulty breathing, muscle aches, sudden loss of smell/taste, diarrhea, vomiting, headache, runny nose
