Goals for Tonight

1) Update to the current fiscal year (2019-20)

2) Summary of new fiscal year 2020-21 Budget

3) A closer look at the new fiscal year 20-21 General Fund
   ○ And 2020-2021 School Year Budget Planning
Shape Our Future
Budget Redesign (Pre-COVID-19)

In Fall 2019, we engaged the community in a budget process to shape a resilient, sustainable future for our students.

Tonight, we will ground in the Pre-COVID-19 budget proposal to build shared understanding...

We are adapting our budget plan to the COVID-19 reality

Shape Our Future & COVID-19 Planning

Now, we must adapt our budget plan to support the COVID-19 reality.

...And we will focus our time and discussion on the path forward for COVID-19 budget planning
But First, Current Year (FY19-20) Update
Status of the current fiscal year 2019-2020

- Similar to any large organization, there are two overarching themes which impact the budget:

Revenue and Expenses

- We forecast revenue primarily on student enrollment and property taxes.
- We forecast expenses primarily based on hiring trends and previous years of underspend.
  - Underspend is when not all of a budget is spent; i.e. the expenditure rate is below what was originally forecasted to build the budget.
  - The expenditure rate can be impacted for a variety of reasons, but general trends do materialize over time.
Status of the current fiscal year 2019-2020

- Although there may be trends we can account for, there are also unexpected activities and situations that impact the budget. Therefore, we can’t predict with 100% accuracy.

- When building the budget for the current year, we are using available data from spring of the previous year; hence why it’s the Preliminary budget.

- As the year progresses, we track and update these events and, in the spring of the each year, submit a mid-year adjustment to account for many of these changes.
Status of the current fiscal year 2019-2020

$500,000

Gap to be taken out of fund balance
Status of the current fiscal year 2019-2020

In Summary:

● The fully loaded budget projected use of approximately $22 million of the fund balance, however, based on historical trends we projected approximately $9 million of underspend in the preliminary budget, resulting in an estimated use of approximately $13 to $14 million from the fund balance.

● As the year progressed, we tracked the fluctuations in revenues and expenditures, and the major highlight is there was close to $16million in underspend primarily from:
  ○ Vacancies approximately $10million
  ○ Operational underspend approximately $4million
  ○ Estimating $2million in additional COVID related underspend
  ○ Net result will be minimal change to our fund balance and remain close to approximately $30million

  ■ We need approx.$19million to maintain healthy cash-flow
  ○ The fund balance which will play a key role into FY21 & FY22 (i.e. next two years) contingency planning
Fiscal Year 2020-2021 Overview
District Budget Planning Cycle

February - April
- District initiates budget planning for upcoming year
- Board approves Budget Amendment for current year

April - May
- Legislature passes bills to appropriate funds for next year
- District assessing site and school budget requests along with staffing plan for next year

December - January
- District Assesses Enrollment and WADM trend for upcoming year
- District receives mid-year state aid allocation for current year

June
- Board approves Prelim Budget for coming year.
- Budget also includes estimated actuals for current year

September - October
- District Assesses Enrollment and WADM trend for current year

State & Local Funding Overview

So how does it all get started for the General Fund?

**State Treasurer**
$13.3 billion

- Treasurer confirms gross receipts; that is the total available revenue for the state’s obligations
- For the fiscal year ending June 30, 2020, the State of Oklahoma will collect approximately $13.3 billions dollars

**State Ed Budget**
$3.0 billion

- The Office of Management and Enterprise Services (OMES) determine information for proposed budget appropriations for the State’s respective agencies
- State legislature and Governor work to develop and approve budget for agencies
- One of those agencies is the Oklahoma Department of Education, where $3.0 billion was set aside for the State Aid Formula for the school year 2020-2021

**Tulsa Public Schools State Funding**
$262 million

- A district’s enrollment, demographics and local Ad Valorem (taxes) will determine its share of the funding formula and impact to collecting local revenue
- For the school year 2020 - 2021 we are estimating state revenue of $164 million and local revenue of approximately $98 million (for a total of $262 million)

**Tulsa Public Schools**
$336.5 million*
**GENERAL FUND**

- In addition to receiving the state and local funding (approx.$266 million) we also receive funds from the County of Tulsa (intermediate funds), philanthropic funds and federal funds (restricted for specific Federal initiatives such as Title I)
- All of this funding creates our General Fund & for 2020-2021 it’s approximately $336.5 million *Excludes fund balance and carryover.

*Based on 3/5/20 2019-2020 SDE Allocation Budget

Shaping Our Future – Tulsa Public Schools Budget Redesign Community Engagement Overview

<table>
<thead>
<tr>
<th>Phase 1</th>
<th>Phase 2</th>
<th>Phase 3</th>
<th>Phase 4</th>
<th>Phase 5</th>
</tr>
</thead>
</table>

**Phase 1**
- 1,496 community members shared feedback at 24 meetings
- 5,700 Tulsans completed our Budget Redesign Survey

**Phase 2**
- 90 representatives from our core constituencies will participate in 3 sets of workshops

**Phase 3**
- 3 meetings with the Budget Advisory Committee
- 4 community meetings will be held throughout the district

**Phase 4**
- Superintendent presents recommendations related to the 2020-2021 budget redesign to Board of Education
- Minimum of 2 opportunities for community to speak to the Board about the superintendent’s recommendations

**Phase 5**
- Engagement opportunities for teachers, school leaders, staff, students, parents, and community
- Board of Education expected to take action on items related to 2020-2021 budget redesign
- Additional opportunities for community to speak to Board about 2020-2021 budget redesign

Ongoing engagement with school leaders, teachers, staff, community, and Board of Education

We believe that our community is essential.

Phase 2 meetings and survey are open to all community members.

Phase 2 community workshops include representatives from our core constituencies: all principals, Tulsa Classroom Teachers Association Building Delegates, Board of Education, representatives from the American Federation of Teachers, the Budget Advisory Committee, Community Advisory Council, Superintendent’s Student Cabinet and Teacher Cabinet, and the Tulsa Council of PTAs.

Phase 3 meetings of the Budget Advisory Committee include a diverse group of 39 community and business leaders who will support Tulsa Public Schools by providing input and feedback on potential strategic investments and resource reallocations.
Shaping a resilient, sustainable future for our students

Whole Child
- Strengthen behavioral and mental health supports
- Invest in social emotional learning
- Bolster the arts and athletics

Academic Excellence
- Continue to build strong instructional practice
- Enhance our standards-aligned, culturally-relevant classroom materials
- Retain and support experienced teachers

Strong Schools
- Provide equitable access to quality learning within each of our feeder patterns
- Create equitable access to specialized programs in our neighborhood schools
- Expand opportunities for college and careers
Shape Our Future Budget Redesign (Pre-COVID-19)

Reduction/changes in district office services  $11 million (approx.)

- Personnel approximately $5 to $6 million
- Non-personnel approximately $6 million*

School closures and consolidations  $3 million (approx.)

Change to elementary staffing plan  $2.5 million (approx.)

- Average increase of 1

*Bell Time savings are not included; this will be re-assessed based on enrollment and COVID re-entry data

Shape Our Future & COVID-19 Planning

FISCAL IMPACT DUE TO COVID-19 PANDEMIC

- The State of Oklahoma’s FY21 budget of $7.7 billion is approximately $280 million or about 3.5% less compared to the initial FY20 State budget.
- The State’s FY21 budget has resulted in a ~2.5% reduction in school funding, resulting in about $78 million less for schools next year.
- For Tulsa Public Schools this has resulted in an estimated cut between six and seven million dollars.

...what about the $2.2 trillion CARES Act?

</tr>
</tbody>
</table>

*Required & may increase depending on student count calculation; being discussed at the national level
School Year 2020-2021 Planning

FY21 Expenditures: Post-COVID

$9M = $5M + $4M
- $5M from CARES Act
- $4M in federal carryover
School Year 2020-2021 Planning

The $9 million are dollars that were not available prior to the COVID-19 Pandemic.

These nine million dollars are available as a result of the action the State and Federal government took to address the developing challenges caused by the health and subsequent economic crisis. $5 million originates from the CARES Act stimulus funding and $4 million is from new waivers the state department of education applied to and were granted by the US Department of Education which allow school districts to increase the amount of Federal* carry over into the following year.

*Federal carryover investments must be compliant with federal requirements for each program (e.g., Title I, II, or IV).
School Year 2020-2021 Planning

Out of the approximate $9 million for start of school planning approximately $4 million will come from Federal\(^1\) carryover, but why $5 million from CARES Act?

**We have the opportunity for additional dollars** from the Oklahoma State Department of Education (incentive grants will vary from $50,000 up to $500,000\(^2\)) if we spend \~$5 mil of the CARES Act, that is, 30% of our share of the $16 million in at least two of the following areas:

A. **Expanding connectivity** for students to enable distance learning (i.e., purchasing devices, hot spots, access points, etc.);

B. Purchasing content from a statewide contract approved by the OSDE for a **Content Management System (CMS)** or **Learning Management System (LMS)**;

C. Providing mental health supports for students through **social and emotional learning** tools;

D. Providing compensatory services to **students identified to be at risk** as a result of the closure of school buildings in spring 2020 (i.e., English learners, students with disabilities, students needing credit recovery, etc.); and

E. Providing training in the **science of reading** for teachers in Pre-kindergarten through fifth grade, with a specific focus on delivering instruction remotely.

---

1) Federal carryover investments must be compliant with federal requirements for each program (e.g., Title I, II, or IV).
2) The State’s incentive grants cannot be used for personnel expenses.
School Year 2020-2021 Planning

Five Priorities for the 2020-2021 School Year

Investing in our families and community organizations as learning partners

Parents, guardians, and families have always been our most important partners in education. During the spring of 2020, we experienced what an enormous role families played in student success during distance learning. We will make significant new investments in leveraging community partners to engage families while partnering with families to help students reach new levels of academic and personal success.

Delivering grade-level learning and rigorous instruction

We will continue our system-wide focus on grade-level learning. We will focus on providing high-quality curriculum, masterful teaching, thoughtful assessment, and analysis of student work to assess rigor, throughout both in-person and distance learning settings.

Preparing and supporting educators

We will focus on developing skills and comfort with the tools our educators will need during the 2020-2021 school year. We will also support the physical, social, emotional, and pedagogical needs of our teachers on an ongoing basis as these are connected components.

The safety of our students, families, and staff

We will make decisions and investment to prioritize student, family and staff needs, even when those investments are unpopular, inconvenient, or have other, unintended, side effects. We will exercise conservative, non-reactionary prudence in making decisions related to safety. When in doubt, we will err on the side of reasonable caution.

The well-being of our students, families, and staff

We believe that social and emotional well-being during a crisis is a necessary precondition for sustainable teaching and learning. In order to create the necessary social and emotional conditions necessary for learning, we will further elevate tools and resources for fostering inclusive classrooms, communities and teams. We will continue to invest time and resources in supporting our students and their families. Sometimes, this investment will come at the cost of other priorities.

The approximate $9 million to support our priorities for the start of school is based on using $5 M from the CARES Act and an additional $4 M of Federal carry over dollars; this may change and we will monitor and adjust once the year starts.
School Year 2020-2021 Planning

We will leverage our planning priorities to align to the State’s priorities and apply for the additional grants:

**OK State Dept. of Ed Priorities**

A) Expanding connectivity

B) Content or Learning Management System (CMS, LMS)

C) Social and emotional learning tools

D) Compensatory services to students identified to be at risk

E) Training in the science of reading (for remote instruction)

**TPS Start of School Priorities**

Delivering grade-level learning and rigorous instruction.

The well-being of our students, families, and staff.

Preparing educators for re-entry
School Year 2020-2021 Planning

In Conclusion...

- We began the year by engaging the community in a budget redesign process to shape a resilient & sustainable future for our students.

- Although we identified approximately $16million in reductions, we now find our community in a health, economic, mental and education crisis.

- The pandemic has resulted in state cuts to education that translate to Tulsa Public Schools’ budget being reduced by approximately $6M to $7M in state funding for FY21 (next year).

- The Coronavirus Aid, Relief, and Economic Security (CARES) Act will provide Tulsa Public Schools with approximately $16million*
  - ~$7M to make up for state cuts
  - ~$5M to support with COVID-19 reentry planning
  - The balance of ~$4M to support continued planning over the next two years and/or make up for additional state cut

*Between $0.5M to $1.8M will be paid out to local private schools, per CARES Act and relevant federal statutes.
In Conclusion...

- **We need additional funding** to support our staff and students during this health, economic, mental and education crisis.

- Examples of potential investments and school opening design considerations:
  - New Masks at $3.50ea for ~40,000 staff and students = $140,000 per purchase. If masks were to be replaced every 5-days, that is a potential investment of $4.5million for the year.
    - Then there is variability: if only half the masks at twice a month are needed, that could reduce the annual expenditure to approximately one million dollars.
  - Transportation: In order to practice current social distancing guidelines, a bus’ capacity would have to be reduced to about one-third resulting in the need to triple our transportation capacity to support pre-covid ridership.
    - We would need to make some major (and unreasonable) tradeoffs in order to invest in what would need to be an approximate $30million transportation budget. We need additional funding to design with less constraints.
School Year 2020-2021 Planning

In Conclusion...

- **We need additional funding** to support our staff and students during this health, economic, mental and education crisis.

- Examples of potential investments and school opening design considerations:
  - Virtual Academy: start up requires investment in teacher positions and we will need to determine how to keep other schools whole.
    - For example, 5000 virtual students in a 50:1 ratio represents the need for 100 teachers, an approximate investment of $5 million.
    - If these 100 teachers are from existing schools, then will we have to design a rebalance that is both fiscally prudent against other needs but also, strategically prudent to support the remaining schools.

- Budget planning will be a combination of leveraging all of our available funds to support opening of schools
  - Such as Fund Balance, Bond dollars, CARES Act and Federal carryover.
Five Priorities for the 2020-2021 School Year

Investing in our families and community organizations as learning partners

Parents, guardians, and families have always been our most important partners in education. During the spring of 2020, we experienced what an enormous role families played in student success during distance learning. We will make significant new investments in leveraging community partners to engage families while partnering with families to help students reach new levels of academic and personal success.

Delivering grade-level learning and rigorous instruction

We will continue our system-wide focus on grade-level learning. We will focus on providing high-quality curriculum, masterful teaching, thoughtful assessment, and analysis of student work to assess rigor, throughout both in-person and distance learning settings.

Preparing and supporting educators

We will focus on developing skills and comfort with the tools our educators will need during the 2020-2021 school year. We will also support the physical, social, emotional, and pedagogical needs of our teachers on an ongoing basis as these are connected components.

The safety of our students, families, and staff

We will make decisions and investment to prioritize student, family and staff needs, even when those investments are unpopular, inconvenient, or have other, unintended, side effects. We will exercise conservative, non-reactionary prudence in making decisions related to safety. When in doubt, we will err on the side of reasonable caution.

The well-being of our students, families, and staff

We believe that social and emotional well-being during a crisis is a necessary precondition for sustainable teaching and learning. In order to create the necessary social and emotional conditions necessary for learning, we will further elevate tools and resources for fostering inclusive classrooms, communities and teams. We will continue to invest time and resources in supporting our students and their families. Sometimes, this investment will come at the cost of other priorities.

When we look across our priorities we will create a crossmap that aligns our available funding streams (e.g. General Fund, Bond Dollars, Federal Grants, Incentive Grants, Fund balance, etc.) to maximize student learning upon the start of schools.
School Year 2020-2021 Planning
In Conclusion...

● State budget challenges are expected to continue into FY22: Uncertain economic and health outlook

● We are currently not planning to receive additional CARES Act Stimulus for FY22 because Congress has not approved additional relief.

● We are setting aside ~$4M of the CARES ACT to cover future potential state revenue shortfall and/or ongoing COVID investments in FY22, but this is unlikely to cover the full magnitude of revenue shortfall and investments
School Year 2020-2021 Planning
In Conclusion...

- Without additional federal dollars in FY22, the State will be expected to make up the $6 to $7 million cut and
- Support the annual cost of living adjustments, that for Tulsa Public Schools is approximately $4 million
- That is already ~$11 million in funding needs that Tulsa Public Schools will have to solve for in FY22, barring further State cuts
- We will monitor closely through next year and continue to not only design the best fiscal strategy to support our staff, students and families but also, to maximize learning for our students.
