

Rising 1st Graders,

Although not mandatory, attached are some printable packets and titles of good workbooks for summer review. The attached worksheets for you to print would be great review for my **lollipop group**. I have also attached the cover of two workbooks below:

Scholastic Summer Express K-1

Summer Bridge Activities K-1

These two workbooks can be ordered through Amazon and are good for the **jelly bean group**. My **gummi bear group** can use either or both~ the printable packets for review and the workbooks for enrichment and challenge. The workbooks are more colorful and engaging. They have stickers and rewards for completed activities which might be more enticing for the children. The reading passages in the workbooks might be more challenging for the **lollipop and gummi bear groups**, but they can work their way up to the challenge. If your child does not remember his/her group, please send me an email for confirmation.

Best,

Mrs. Casarella
