

West Iredell High School

213 Warrior Drive
Statesville, North Carolina 28625

From the desk of the Principal

Good Evening Warrior Family,

I hope everyone is staying safe, healthy, and enjoying your summer break. We have been diligently working on our reopening plan. The board approved for us to be able to offer students two days of face-to-face learning and three days of remote online learning from home. We are finalizing which students will come to school on which days. We are also having to look at bussing for those students that will need transportation to school.

Parents - we need you and your child to understand that they will be held accountable for all of their work assigned by their teachers no matter if at school face-to-face or at home working remotely. All work will be housed in Canvas. Teachers will be providing feedback and assigning grades.

Parents - it is imperative that you begin speaking to your child about how school will look when we begin on Monday, August 17th. Students will be required to complete a Health Screening each morning before entering the building. The health screening consists of a temperature check as well as a series of questions. It is essential that your child take the health screening and process for entering the building very seriously. It is also crucial that you speak with your child about wearing a mask while in the building AND that they continuously practice social distancing (6ft) from those around them.

Finally, I want you to know that West Iredell High is committed to providing a safe learning environment for all of our students. Please be patient as we are working through the many details to get school opened on August 17th. We are excited about getting our Warriors back on campus.

If you have any questions please contact school at 704-873-2181 or email me ellyn_gaither@iss.k12.nc.us.

Thanks and Have a great evening!

Ellyn J. Gaither - Principal
