#### **ELECTRONIC INFORMATION SERVICES USER AGREEMENT - STUDENTS**

Details of the user agreement shall be discussed with each potential user of the electronic information services (EIS).

#### **(Litchfield Elementary School District #79 Student Technology User Agreement)**

The Litchfield Elementary School District #79 (LESD), in alignment with the Arizona Department of Education, and recognizing the Partnership for 21st Century Skills, believes technology encompasses the tools and strategies for solving problems, using information, increasing productivity and enhancing personal growth. LESD encourages students to become responsible digital citizens by mastering technology standards in order to live, learn and work successfully and responsibly in an increasingly complex, technology-driven society.

Learning how to safely navigate the Internet is a life skill that all students are expected to master. Filtering software is utilized by Litchfield Elementary School District (LESD); however, no filtering system is capable of blocking one hundred percent (100%) of inappropriate material on the Internet. All students are advised that access to the Internet may include the potential for access to materials deemed inappropriate.

To ensure mastery of online safety, students will:

- A. Use technology at school only for academic purposes.
- B. Only log into accounts authorized to the student by LESD when using District technology resources.
- C. Protect personal information such as name, address, email, family information, or school details while visiting websites or engaging in online communications.
- D. Immediately report any suspected incidents of malicious online behaviors such as cyber bullying or online predators to a LESD staff member or submit an online cyber bullying form.
- E. Students uncertain about whether a particular site is acceptable or appropriate should consult an LESD staff member.

- F. Ask the teacher before registering or signing up for online accounts, including competitions.
- G. Participate in LESD provided online safety education programs.
- H. For grades kindergarten through eighth (K-8th), parents/guardians and students sign the student handbook that contains the acceptable user agreement.
- I. Students in grades three through eight (3-8) will sign an electronic acceptable user agreement for Google Apps.

LESD encourages students to utilize technology in order to:

- A. Communicate and collaborate with peers and teachers in a respectful manner.
- B. Enhance academic content by researching reliable, safe web sites.
- C. Publish work as designed and guided by the teacher.
- D. Create web-based portfolios for confidential and safe publishing of student work.

Technology use at LESD is a privilege, not a right, and failure to meet these guidelines could result in suspension of your Google Student account and other disciplinary actions, as outlined in your [LESD Student Handbook](#). We believe you are a responsible, innovative, and collaborative digital citizen.

Students are held responsible to use LESD technology resources responsibly.
