Educating and Developing the Whole Person for the Glory of God

Trinity Christian Academy Middle School iPad Case Policy 2020-21

A case with an attached keyboard is required for each student's iPad. Parents are asked to provide an acceptable iPad case before devices are distributed. To ensure that the case provides protection for the device, it must meet these minimum standards:

- For grade 8, the case must be for the iPad 2017 (5th gen.), model A1822.
- For grade 6 and grade 7, the case must be for the iPad 2018 (6th gen.), model A1893.
- For grade 5, a case will be provided for students.
- The case must contain an attached QWERTY keyboard.
- When closed, the case must surround the iPad, resulting in no exposed edges or corners.
- The case must be a single unit, not one that can be separated into two parts.
- Any labels, designs, or stickers on the case must not be offensive to the standards of the TCA community.
- If, at any time, the case fails to function properly or violates any of the above conditions, the student will be asked to replace the damaged case with a new one.

iPad devices will not be issued to students until they have a case that is approved by the school. Please keep your receipt in the event the case you purchased is not approved.
