

NOTIFICATION CONCERNING

ASBESTOS MANAGEMENT PLANS

ASBESTOS HAZARD EMERGENCY RESPONSE ACT  
(ASHERA) (40 CFR 763.93 [g] [4])

August 2020

Avon Public Schools has an asbestos management plan on file for each school building as required by the Asbestos Hazard Emergency Response Act (ASHERA). This management plan has been approved the Asbestos Program of the Connecticut Department of Public Health.

A copy of the plan is available for your review at each school building. Additionally, a complete set of management plans is maintained in the Avon Board of Education Office at 34 Simsbury Road, Avon, CT. These plans are available during normal business hours.

Periodic surveillance is required and conducted every six months. Each building is completely re-inspected every three years by a Connecticut-licensed asbestos inspector to make sure all ACM is properly identified and that all asbestos management plans are up to date.

Avon Public Schools has designated the Director of Operations, Mr. Myles Altimus as the person responsible for ensuring that the requirements of the asbestos management plan are properly implemented. Mr. Altimus can be reached to answer any questions/concerns regarding this process at (860) 404-4731 or [maltimus@avon.k12.ct.us](mailto:maltimus@avon.k12.ct.us).
