

## Registration

Registration can sometimes be confusing because there are three types of registration.

The first registration type is **Spring Registration**. This is the time when students and parents choose the courses they would like to take for the next school year.

The second registration type is **Summer Registration**. This is the time when students and parents take care of important items in order to begin the next school year. These items include:

- Providing proof of immunization (7<sup>th</sup> grade only)
- Paying school fees
- Signing required online documents
- Printing your new schedule and locker assignment

The third registration type is **New Student Registration**. This is for students who have moved into the school boundaries. This includes students transferring schools within the district.
