### **I. PURPOSE**

### **II. GENERAL STATEMENT OF POLICY**

Implementation of the Minnesota Academic Standards and federal law will require a new level of accountability for the school district. The school district will establish a system to transition to the graduation requirements of the Minnesota Academic Standards. The school district also will establish a system to review and improve instruction, curriculum, and assessment which will include substantial input by students, parents or guardians, and local community members. The school district will be accountable to the public and the state through annual reporting.

### **III. DEFINITIONS**

- A. “Credit” means a student’s successful completion of an academic year of study or a student’s mastery of the applicable subject matter, as determined by the school district.
- B. “Graduation Standards” means the credit requirements and locally adopted content standards or Minnesota Academic Standards that school districts must offer and certify that students complete to be eligible for a high school diploma.
- C. “World’s best workforce” means striving to: meet school readiness goals; have all third grade students achieve grade-level literacy; close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living in poverty; have all students attain career and college readiness before graduating from high school; and have all students graduate from high school.

### **IV. ESTABLISHMENT OF GOALS; IMPLEMENTATION; EVALUATION AND REPORTING**

#### **A. School District Goals**

- 1. The School Board has established school district-wide goals which provide broad direction for the school district. Incorporated in these goals are the graduation and education standards contained in the Minnesota Academic Standards and federal

law. The broad goals shall be reviewed annually and approved by the School Board. The School Board shall adopt annual goals based on the recommendations of the Teaching and Learning Committee.

2. The improvement goals should address recommendations identified through the Teaching and Learning Committee process. The school district's goal setting process will include consideration of individual site goals. School district goals may be developed through an education effectiveness program, an evaluation of student progress committee, or through some other locally determined process.
