You will also participate in the greater community of the school including collaborating with other teachers on interdisciplinary projects, taking part in the advisory program, teaching elective and intersession courses, chaperoning field trips (day and overnight), and participating in faculty meetings and professional development.

Ready for anything!

This will be a school year like no other. We will begin in remote learning mode and move to hybrid remote/in-person or all in-person learning as conditions allow. This is both a challenge and an opportunity; we are looking for individuals who are ready, alongside our agile faculty, to adapt and move with these changes.
