

# Clear Cache & Cookies in Google Chrome

When you use a browser, such as Chrome, it saves some information from websites in its cache and cookies. Clearing them fixes certain problems, such as loading or formatting issues on sites.

## On Your Chromebook

1. Open Chrome.
2. At the top-right, click More : .
3. Click More tools  Clear browsing data.
4. At the top, select Advanced. →
5. Select **All time**.
6. Tick the available boxes. Browsing history & Download history may be uncheckable. →
7. Click Clear data.
8. Sign out of your chromebook.
9. Shutdown your chromebook.
10. Turn your chromebook back on & re-login.
