

Daily Home Screening for Students

Parents: Please use the following checklist as a guide to monitor your child prior to arrival at school.

Section 1: Symptoms

The following symptoms may indicate a possible illness that may decrease the student's ability to learn and may put them at risk for spreading illness to others. Please check your child for these symptoms.

<input type="checkbox"/>	Temperature 100.4 degrees Fahrenheit or higher when take by mouth
<input type="checkbox"/>	Sore throat
<input type="checkbox"/>	New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
<input type="checkbox"/>	Diarrhea, vomiting, or abdominal pain
<input type="checkbox"/>	New onset of severe headache, especially with fever

Section 2: Close Contact/Potential Exposure

<input type="checkbox"/>	Within the past 14 days, have you had contact with anyone that you know had COVID-19 or COVIDlike symptoms? * Contact being 6 feet or closer for more than 15 minutes with a person, or having direct contact with fluids from a person with COVID-19 (for example, being coughed or sneezed on)
<input type="checkbox"/>	Have you had a positive COVID-19 test for active virus in the past 10 days?
<input type="checkbox"/>	Within the past 14 days, has a public health or medical professional told you to isolate or quarantine because of COVID-19?

IF YES:

Stay home and contact your school nurse of symptoms or close contact exposure.

Quarantine: until 14 days after exposure

Isolate: 10 days plus 24-hour fever free without fever reducing medication, and symptom improvements. Contact Healthcare provider or Baldwin County Health Department (251-947-1910) for further instructions.
