

Calculator Release Form

2020-2021

All Barbers Hill ISD students in Grades 8-12 will be issued a calculator for use in math and/or science classes. Students will still be accountable for showing their work, but the calculator will be a helpful tool.

Students are responsible for care of the calculator. Students will be issued one set of batteries when the calculator is issued, but will be responsible for replacing batteries as needed.

The following actions may result in replacement of the calculator and/or denial of calculator privileges:

- Scratches or marks on the screen and/or calculator
- Damage in any form to the calculator
- Programs entered into the calculator
- Loaning calculator to others

If lost, stolen, or damaged, the student will have the responsibility of replacing it at the current cost, which is approximately \$110 or more.

This form shall be signed and returned to campus prior to issue of a calculator.

We agree to the above criteria and accept responsibility for any damage.
