ADVANTAGE

WHY A NEW BACCALAUREAT?

TO SIMPLIFY ITS ORGANIZATION

The reorganization of the tests will be less disruptive and secondary school students will thus be able to work until the end of the school year.

TO PROMOTE REGULAR WORK THROUGH THE SCHOOL YEAR

A part of the final grade is based on the general average of trimestral report cards (11th and 12th grades).

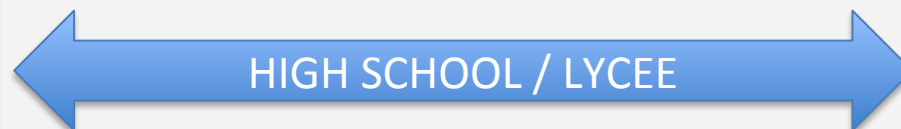

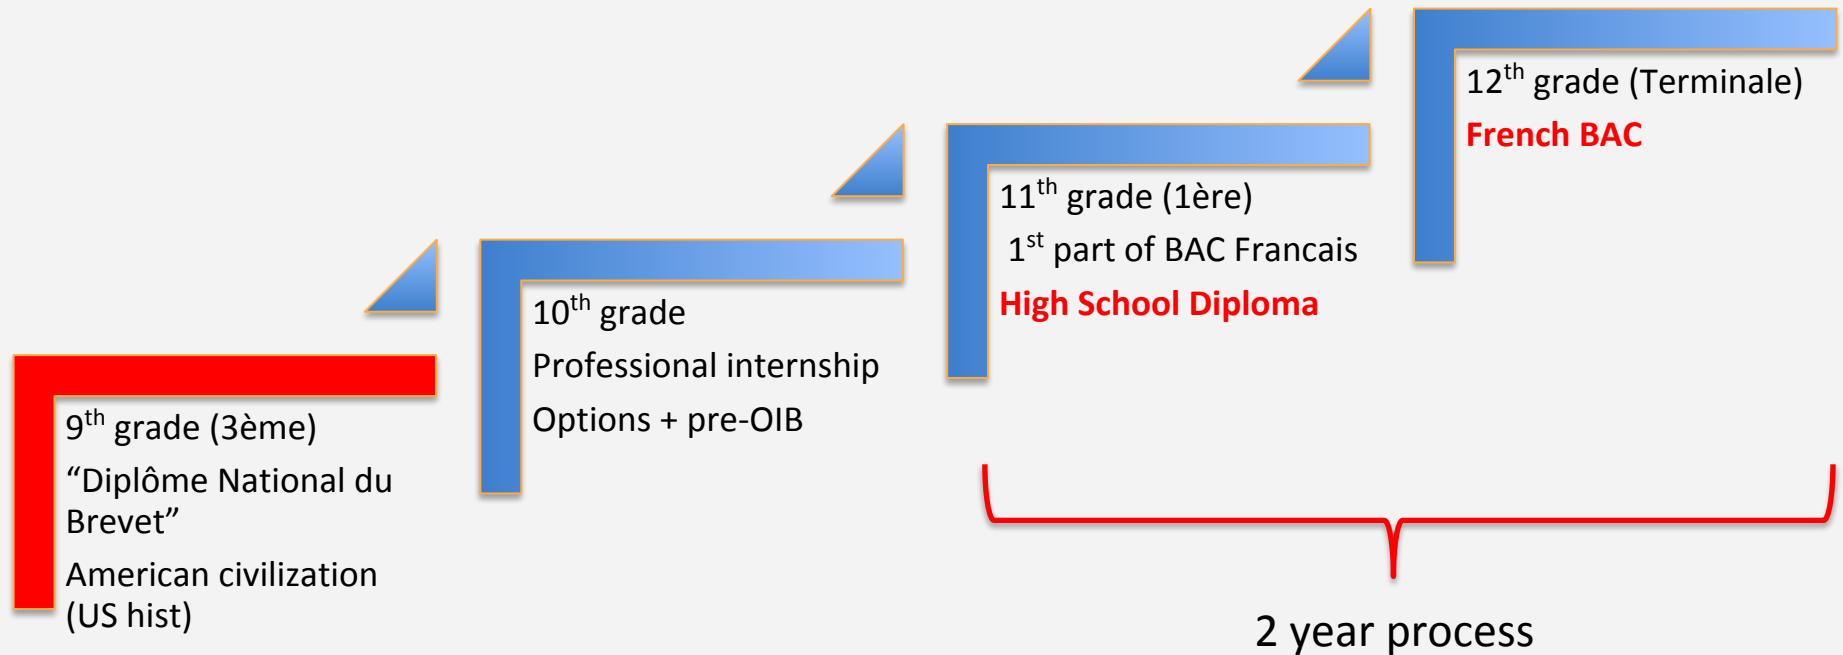

TO BETTER PREPARE STUDENTS FOR COLLEGE ADMISSION

College counseling is part of the curriculum. A diploma including common core, mandatory and non mandatory electives courses.

TO SERVE AS A STEPPING STONE TO COLLEGE SUCCESS

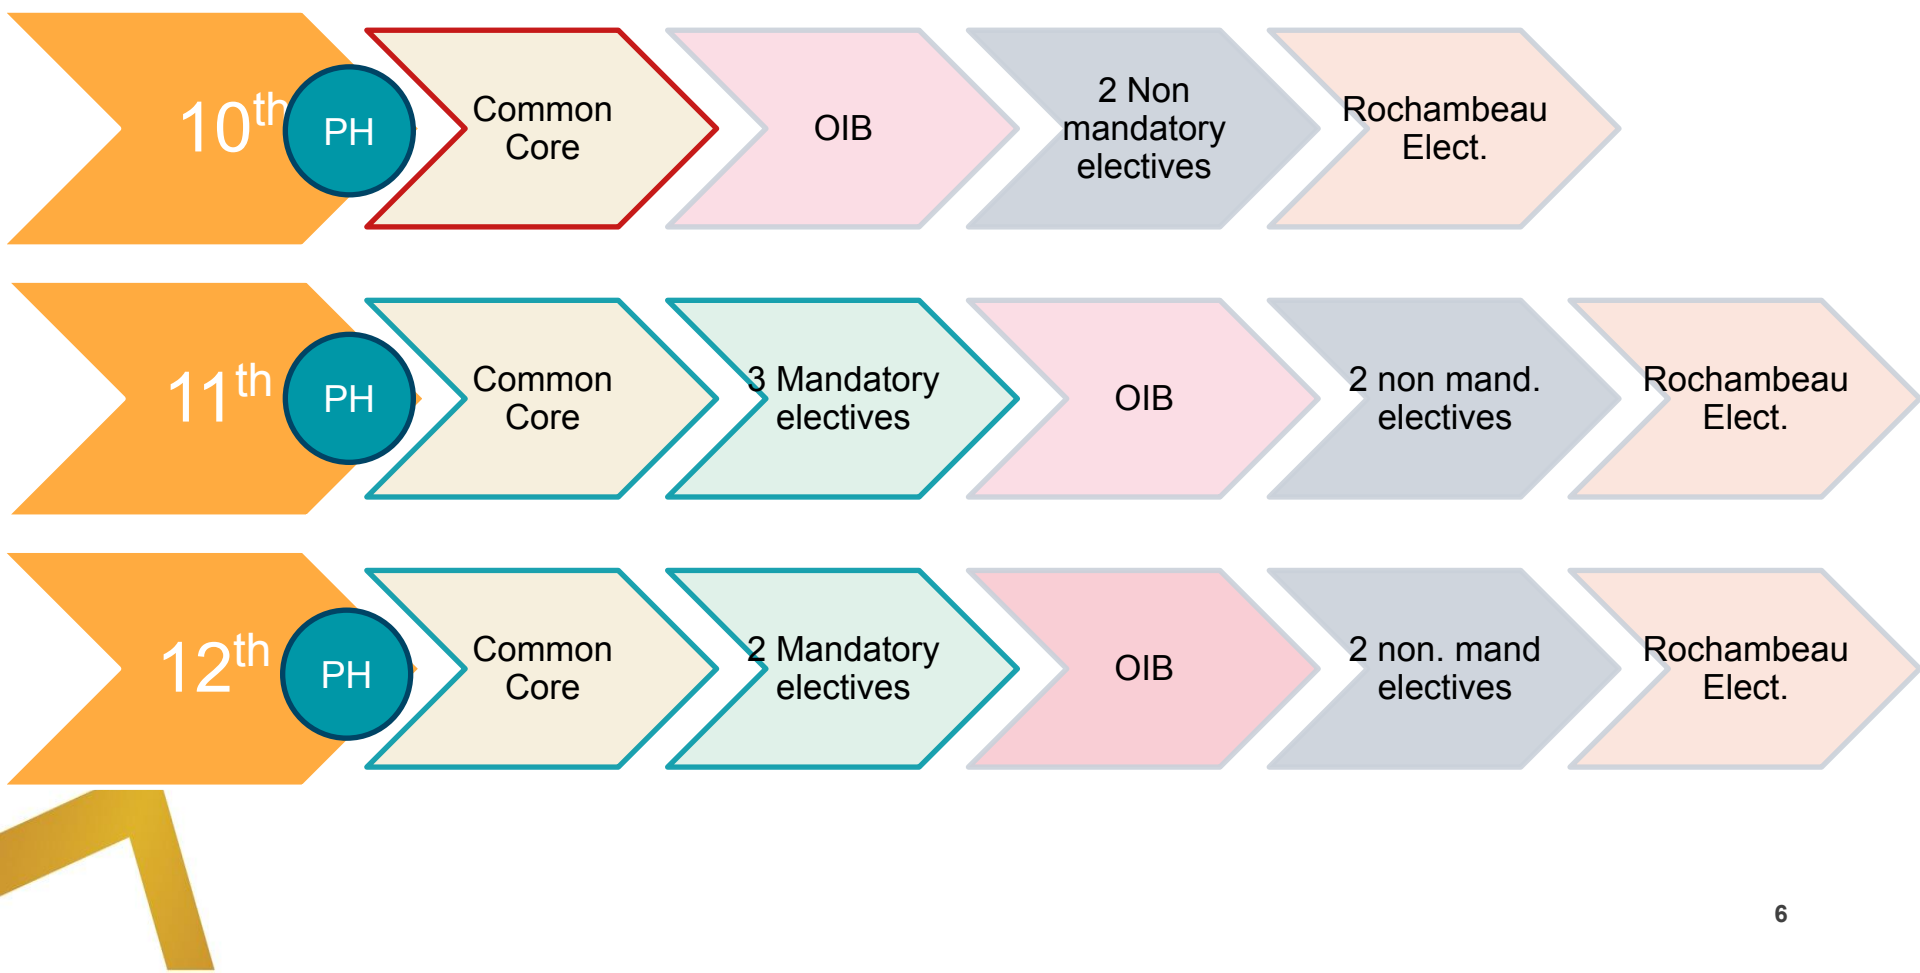

Elective courses will allow students to deepen their knowledge and refine their college plan. The common core courses give them a solid foundation. The OIB promotes international course of studies.

A FOCUS ON FRENCH MATH

- **Open exercises** in which students need to **show their work / process**. Points may be awarded even if they do not achieve the desired results.
- Calculus, Algebra, Probability, Geometry, and Algorithms are **integrated** in the three years of the Baccalaureate teaching
- **Scientific research methods**, in addition to mathematical methods, are part of the assessment. Teachers seldom use MCQ.
- The curriculum incorporates use of **ICT** by the teacher (as a demonstration tool) and students (as a way to explore a situation), and the use of oral mathematical exercises.

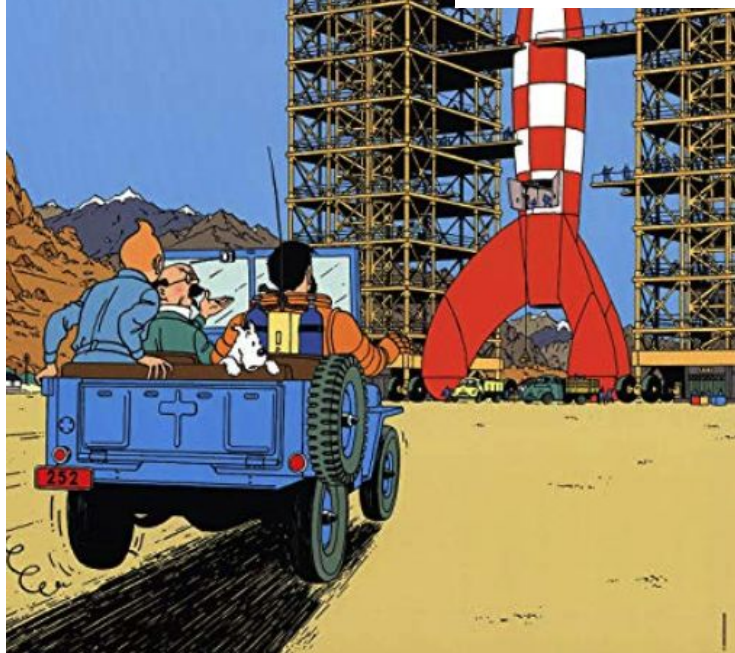

A FOCUS ON FRENCH MATH

What differs:

- **Testing** methods
- The focus on **methodology vs. results**
- One teacher teaches all areas of maths, hence helping students make **connections** between different areas of mathematics.
- **Curriculum**: the distribution of concepts in the curriculum
& **Strong emphasis on mathematical demonstrations**
