### **VCS Reopening Plan**

VICTOR – VCS was informed today by email from the New York State Health Department that we are one of many districts who have not yet submitted in-person reopening plans to the State. VCS submitted a reopening plan to New York State on July 31<sup>st</sup> and posted the plan to our website shortly thereafter.

We received email confirmation from the State that we submitted our plan and have received significant feedback on it from the public who have accessed the plan on our website at <https://www.victorschools.org/district/2020-reopening-process>

It is our understanding that there is no issue with the plan itself but has to do with an internal State verification system that is being rectified.
