

Canvas Parent App Account Creation

IOS Instructions

Obtain Pairing Code - Before following the directions below, have your student log into Canvas. Your student needs to click on “Account” and then choose “Settings”.

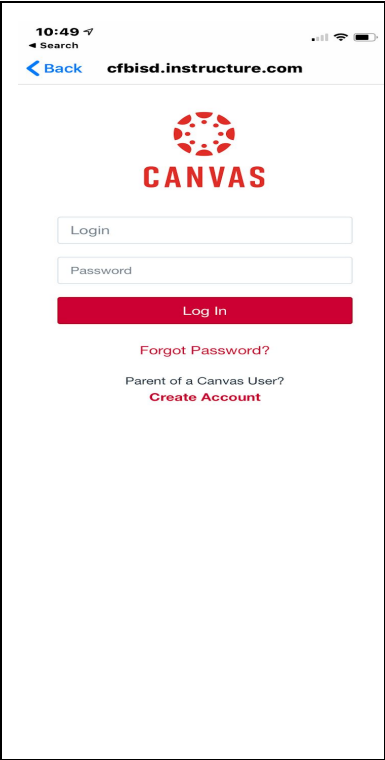

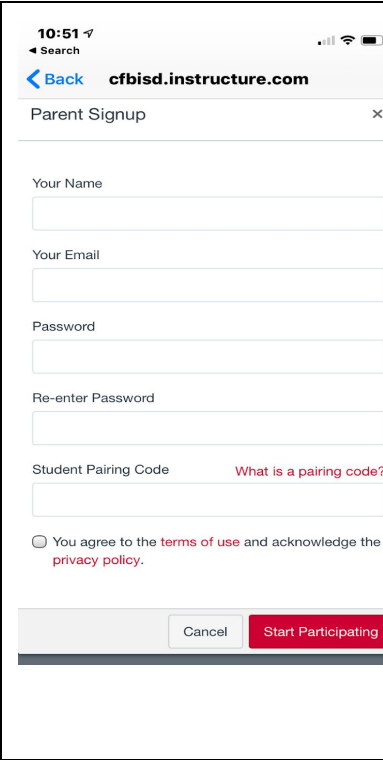

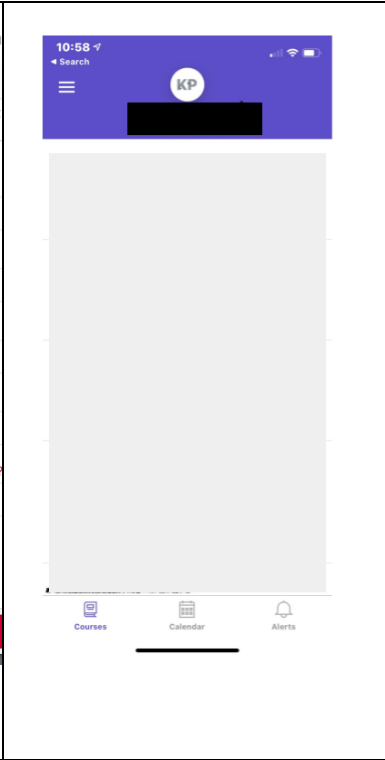

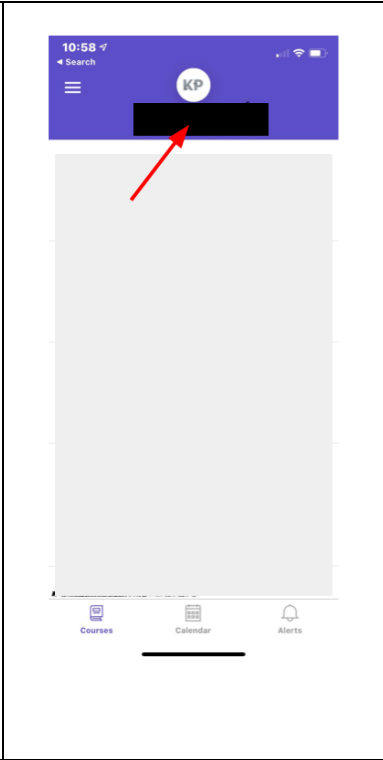

On their “Settings” page they should click on the button that says “Pair with Observer”.

A pairing code will be generated. You will need this code for the next step.

A screenshot of the App Store search results for 'Canvas Parent' by Instructure Inc. The app is shown with its icon, a 4.5-star rating, and an 'OPEN' button. Below the app card, there are two preview images showing the app's interface.	A screenshot of an iOS notification from the Canvas Parent app. The notification asks for permission to send notifications and includes a 'Don't Allow' button and an 'Allow' button.	A screenshot of the Canvas Parent app's 'Find School' screen. It features the Canvas Parent logo, a blue 'Find School' button, and a QR code.	A screenshot of the 'Find School' screen with a keyboard open. The text 'What's your school's n...' is visible at the top, and the keyboard is positioned over the search field.	A screenshot of the 'Find School' screen with a keyboard open. The text 'What's your school's n...' is visible at the top, and the keyboard is positioned over the search field. The search results show 'Carrollton-Farmers Branch ISD: Parents' selected.
<p>1. Find and install the Canvas Parent app in the App Store.</p>	<p>2. If you receive a message like the above, and you want to receive notifications and alerts via the Canvas Parent App, select “Allow”.</p>	<p>2. Open the app. Click on Find School.</p>	<p>3. Type in - Carrollton-Farmers Branch ISD In the Find your school or district.</p>	<p>4. Select “Carrollton-Farmers Branch ISD: Parents”</p>

				
<p>5. Initially, select “Create Account” under the login information boxes.</p>	<p>6. Complete the necessary fields on the next screen: First and last name (parent’s name), parent’s email address, password, password confirmation and student pairing code found during original steps above.</p>	<p>7. You should then see the parent dashboard for this student, including courses, calendar, and alerts.</p>	<p>8. Click the student name at the top of the window to add additional students. Adding students requires a pairing code for additional students. (Repeat Obtain Pairing Code directions at the top of this page for the next student.)</p>	<p>9. To customize settings and notifications for each student associated to your account select the menu (three lines at top left). Click on the student name and customize settings as you prefer.</p>
