1. The plan is listed as an “eight-week plan” from August 31 to October 16<sup>th</sup>, what happens after October 16<sup>th</sup>?

Our School District will be constantly monitoring local health information as we progress with the safest plans possible. Our goal is to have all students eventually return to school every day. It is difficult to know where transmission rates will be in October, but we will continue to operate in eight week sessions and will be announcing our plans for the second eight-week session during the first week of October.
