## HIGH SCHOOL AND ACADEMY

### U of D Jesuit Community Pledge During the COVID-19 Pandemic

As invested members of the University of Detroit Jesuit community, steps must be taken during this pandemic to protect the health and welfare of all its members, including but not limited to the students/faculty/staff. The ability to conduct in-person learning is contingent on all of us in the community working together.

As such, I agree to:

- Assume responsibility in helping keep the U of D Jesuit community safe from the spread of COVID-19
- To monitor my son(s) for symptoms related to COVID-19 and facilitate completion of the daily screening Health Questionnaire truthfully and faithfully
- Keep my son home if he is not feeling well or is sick
- Honestly report to school if my son is diagnosed with COVID-19
- Honestly report to school if a household member is diagnosed with COVID-19 or any circumstance that results in my son(s) being considered a close contact
- Follow the school related policies currently in place directing when my son(s) may return to school after a COVID-19 related diagnosis
- Participate in contact tracing if deemed necessary to preserve the wellness of the community
- To reinforce with my son(s) the protocols and procedures put in place by University of Detroit Jesuit, including public health recommendations, intended to prevent and slow the spread of the virus associated with COVID-19
- To be positive, helpful, and caring as pertains to the U of D Jesuit community- such as demonstrating a willingness to reflect upon and self-quarantine after travel, if necessary.

I acknowledge the situation surrounding a return to school and COVID-19 is one of uncertainty, and the current policies and recommendations in place will likely change as the academic year progresses.
