

Daily Home Screening for Students

Parents: As an effort to keep Montour School District in-person learning safe for all students, please complete this short check each morning. If any of the boxes in Section 1 or 2 are checked, please keep your child at home.

SECTION 1: Symptoms

If your child has any one of the following symptoms, that indicates a possible illness that may decrease the student's ability to learn and also put them at risk for spreading illness to others.

	Temperature 100.4 degrees Fahrenheit or higher when taken by mouth
	Sore throat
	New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
	Diarrhea, vomiting, or abdominal pain
	New onset of severe headache, especially with a fever

SECTION 2: Close Contact/Potential Exposure

	Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person with confirmed COVID-19
	Traveled to or lived in an area where the local, Tribal, territorial, or state health department is reporting large numbers of COVID-19 cases as described in the Community Mitigation Framework
	Live in areas of high community transmission (as described in the Community Mitigation Framework) while the school remains open
