

FARIBAULT PUBLIC SCHOOLS BACK TO SCHOOL 2020-21

Faribault Public Schools provides a high-quality and equitable education that nurtures, inspires, challenges, and empowers all students to engage and grow as learners and citizens.

**To view our full COVID-19 Preparedness Plan,
go to faribault.k12.mn.us**

A MESSAGE FROM SUPERINTENDENT TODD SESKER

Dear Faribault Public Schools Families,

Faribault Public Schools and community leaders have spent much of the summer developing a back to school plan that prioritizes staff and student safety amidst the COVID-19 pandemic. We were given additional guidance on July 30 when Governor Walz and the Minnesota Department of Education announced a Safe Learning Plan that authorized school districts to use a localized, data-driven approach to resuming school this fall.

The MDE's plan outlined the steps each district should take to determine its safe learning model, starting with tracking of our county COVID-19 case rate per 10,000 residents. Rice County had a rolling 14-day average of 10.9 cases per 10,000 residents as of the publication of the data on Aug. 8. The average has remained under 20 since June 14. For counties between 10-19 cases per 10,000 residents, the MDE indicated the following learning models: in-person learning for elementary students and hybrid learning for secondary students.

Upon extensive review of the MDE's guidance and parent and community survey data, ongoing collaboration with members of the district COVID-19 Task Force, and consultation with Rice County Public Health, **we plan to start the school year in a hybrid learning model for grades PreK-12 and Adult Education.** Under our hybrid plan, students in Grades PreK-6 will return to school every day with enhanced safety measures in place. Students in Grades 7-12 will attend school in person two days per week and engage in distance learning three days per week. All students have the option to participate in distance learning full-time.

Regardless of the learning model chosen, we will provide meals to students who need them and child care to students of Tier 1 emergency workers. Additional information about our hybrid learning model, the health and safety measures we're putting in place, food service, transportation and child care can be found in this document and in our Preparedness Plan on our website. You will receive additional building-specific information from your child's principal in the coming days.

Our back to school plan is designed to be flexible so we can pivot to distance learning for all students or resume full in-person learning when it's safe to do so. Our Regional Support Team, made up of Rice County Public Health and the Minnesota Department of Health, will inform our decisions by providing us with the most recent case data and consulting with us regarding implementation and evaluations of our safety practices and learning model. The Regional Support Team will work directly with our new health and safety manager to ensure we're taking every step possible to maintain a safe and healthy learning environment for our students and staff.

Thank you for your patience and understanding during these unprecedented times. Our school district is dedicated to overcoming the obstacles created by this pandemic and continuing to nurture, inspire, challenge and empower the learners in our community.

Sincerely,

Todd Sesker

Superintendent Todd Sesker

FPS BACK TO SCHOOL PLAN

Our Priorities

- Be prepared to implement any of the three learning models, as necessary
- Provide an every-day, in-person option for Pre-K and elementary families
- Limit disruptions for students and families
- Improve distance learning. Provide distance learning as an option for all students
- Provide a high-quality and equitable education for all students
- Focus on the health, safety and well-being of our students and staff
- Focus on the social-emotional needs of our students and staff

Three Learning Models at a Glance

Full-time in-person Learning

Hybrid Learning

Distance Learning

We're Committed to Health and Safety

To start the school year, each building will be equipped with:

- Plexiglass sheets for the reception areas.
- Health screening stations at designated building entrances that will include recommended screening tools per the Minnesota Department of Health guidelines. For example: thermometers, hand sanitizer, disposable masks for visitors, and posters with health screening questions.
- Social distancing rules that will be identified in public spaces.
- Posters promoting health and safety practices.
- Cleaning materials for each classroom. Desks will be wiped down with disinfectant and Microfiber towels between classes.
- Extra masks that will be available to all staff and students.
- Protocols in place for isolating and removing those with COVID-19 symptoms
- Well-maintained heating, ventilation and cooling systems that are operating at peak efficiency.

PRE-K-GRADE 6 HYBRID MODEL

Operations

- All students will attend school daily with strict social distancing and capacity guidelines in place.
- Most classes will consist of between 12-15 students. Each class will be taught by licensed staff in classrooms that are set up to allow for social distancing.
- **PreK-grade 5 students** will attend McKinley Early Childhood Center or their elementary school. Large common areas like media centers and gymnasiums may be converted to classroom spaces if needed.
- **Grade 6 students** will attend Faribault Middle School. Large common areas like media centers and gymnasiums may be converted to classroom spaces if needed.
- An iPad will be provided to each kindergarten-Grade 6 student, regardless of if they select hybrid learning or distance learning, so all students will have a device with access to the internet. We will communicate more information soon about getting your students' iPad, parent/guardian and student responsibilities with the iPad, how to get technology support, and more.

Safety Measures

- FPS Preparedness Plan will be implemented.
- Visual reminders will be displayed on floors and walls to remind students and staff to stay 6 feet apart in lines and in areas they typically congregate.
- Limit non-essential visitors and volunteers and activities involving external groups or organizations.
- Meals will be delivered to the classroom.
- iPads will be used daily to support learning at home and to prepare for full-time distance learning, if necessary.
- New bus and pick-up/drop-off protocols will be implemented.
- Modified school-day schedule will be implemented to decrease high-volume student transitions between classes, during lunch and before and after school.
- Walking lanes will be designated in hallways to limit congestion.
- Learning opportunities will be altered to limit sharing of tools and supplies.
- Teachers will maintain an eight-foot spatial barrier at the front of the learning space.

Principals will provide information on how these plans will be implemented at each individual building.

iPads for all students

This school year, every K-12 student will receive an iPad to support learning in person and online. Students will receive and use their iPads regardless of the learning model. By providing the same device to all students, Faribault Public Schools reduces the disparity in type, quality and capability of the devices students have access to, both in their classrooms and at home. Additionally, providing a device for each student ensures that we will be able to meet the CDC recommendations for returning to school buildings, which indicate that electronic devices should not be shared.

GRADES 7-12 HYBRID MODEL

Operations

All students will attend school twice a week with strict social distancing and capacity guidelines in place. Middle school (Grades 7-8), high school and ALC students would be split into two groups:

- FMS and FHS Group A: Attend in-person Monday and Tuesday, distance learning at home the other days; Group B: Attend in-person Thursday and Friday, distance learning at home the other days (Example below). Siblings will be placed in the same groups.
- ALC Group A: Attend in-person Monday and Tuesday; Group B: Attend in-person Wednesday and Thursday. Distance learning at home the other days.
- Wednesdays will be distance learning days for all FMS (Grades 7-8) and FHS students (except center-based), with time for individual student interventions, enrichment, planning for instruction and deep cleaning the building, in addition to daily cleaning.
- Classrooms will be set up to provide social distancing and reduced to approximately 12-18 students at the middle school, 15-21 students at the high school depending on the size of the class and space available.
- Learning in school will utilize best practices for teaching and learning while following health and safety requirements.
- Learning at home will utilize best practices for teaching and learning in a virtual environment to support and enhance learning for students.
- iPads will be used daily to support learning at home and to prepare for full-time distance learning, if necessary. We will communicate more information soon about getting your students' iPad, parent/guardian and student responsibilities with the iPad, how to get technology support, and more.

Safety Measures

- FPS Preparedness Plan will be implemented.
- Visual reminders will be displayed on floors and walls to remind students and staff to stay 6 feet apart in lines and in areas they typically congregate.
- Limit non-essential visitors and volunteers and activities involving external groups
- Meals will be eaten in the classroom.
- New bus and pick-up/drop-off protocols will be implemented.
- Modified school-day schedule will be implemented to decrease high-volume student transitions between classes, during lunch and before and after school.
- Walking lanes will be designated in hallways to limit congestion.
- Learning opportunities will be altered to limit sharing of tools and supplies.
- Teachers will maintain an eight-foot spatial barrier at the front of the learning space.

Principals will provide information on how these plans will be implemented at each individual building.

OTHER LEARNING MODELS

Distance Learning

If the number of cases in Rice County rises to a rate of more than 50 per 10,000 people, or if other local health factors warrant, Faribault Public Schools will move into a full-time distance learning model for all students in accordance with the Minnesota Safe Learning Plan.

The distance learning provided at the end of last school year was implemented under emergency circumstances in just a few days. This summer, teams of administrators and teachers have worked to improve distance learning by:

- Coordinating consistency for use of the Seesaw and Schoology learning management systems.
- Sharing distance learning best practices and identifying “must do/may do” activities.
- Providing a better mix of synchronous (same time) and asynchronous (independent application of learning) learning opportunities.
- Increasing student capacity for managed independent learning.
- Narrowing the curriculum and continuously monitoring scope and sequence across grade levels.
- Establishing similar classroom practices for students to follow, whether in school or at home.
- Providing additional resources to help parents and guardians support their children in distance learning.

This year, under our distance learning model students would:

- Continue to learn through the same online platforms they used during distance learning days in the hybrid model.
- Bring home their iPads to aid in learning.
- Have daily contact with their teacher through email, live instruction and/or recorded video lessons.
- Receive targeted online support.
- Have a consistent schedule with clearly communicated expectations from their teacher(s).

Full in-person Learning

Our goal is to return to full-time in-person learning when it is safe to do so. There are many factors that would contribute to allowing us to move back into buildings full-time, including Rice County case data. In this model:

- All students would be in school every day under normal building hours.
- Health and safety measures outlined by the MDH and MDE would still be followed.
- Some learning opportunities may still be limited or altered.

How will students/staff be separated while in school if exhibiting symptoms?

Each school building will have an isolation room or space separate from the nurse's office where students or employees who may have symptoms of COVID-19 will wait to be evaluated or picked up. Only essential staff and students assigned to the isolation room or space may enter. The room will be thoroughly disinfected and sanitized after each use, and as needed. Strict social distancing is required to be maintained while in the room. Staff will assist students who are ill by notifying their parents/guardians and requiring they be picked up or brought home via bus taxi.

What will happen when there is a confirmed case of COVID-19 in a school building?

When it's confirmed that a person infected with COVID-19 was in a school building, Faribault Public Schools will:

- Gather information from the infectious individual to determine close contacts.
- Contact the Minnesota State Health Department.
- Notify parents, students and employees of close contacts to inform them of the confirmed case of COVID-19.

NOTE: The individual who tested positive will not be identified in communications to the school community at large, but may need to be selectively identified for contact tracing by the state health department.

How is it determined when to quarantine a student or employee?

Students and employees will be asked to self-quarantine if they test positive for COVID-19 or exhibit symptoms of COVID-19 based on CDC guidance that is not otherwise explained.

Symptoms looked for:

- Fever of 100.4 degrees F or greater
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Muscle pain
- Headache
- Sore throat
- Loss of taste or smell
- Nausea, vomiting, diarrhea

Other health and safety measures

Health and safety protocols, such as managing student and staff arrivals at school, maintaining safe social distancing, and increasing other healthy habits while in school buildings, help minimize the exposure and spread of COVID-19.

- School nurses and/or health assistants available on each campus to support health needs.
- Daily screening protocols for employees and students.
- Students who do not pass arrival screenings and/or become ill with COVID-19 related symptoms will be placed in isolation areas to wait for parent/guardian pick up.
- Soap and paper towels in restrooms will be replenished throughout the day.
- Hand-washing instructions and regular reminders reviewed and implemented.
- Social distancing of at least 6 feet throughout the building, including hallways and common areas, will be maintained.
- Hard-to-disinfect toys and personal items will be removed to increase usable class space.
- Classrooms will be rearranged to ensure the most social distancing footage possible is utilized between student seating areas. Tables and desks will face the same direction.
- All buildings will be provided PPE and cleaning and disinfection items on site.
- Enhanced daily cleaning, sanitation, and disinfection of high-touch areas, classrooms and spaces will be conducted multiple times throughout the day, after school, between classes or as often as feasible.
- Water bottle fillers will be available and students are encouraged to bring their own reusable water bottles. Regular water fountains will be disabled.
- Hand sanitizer stations will be available at the main entrance of all buildings and in other locations where soap and water are not available.
- Plexi-Glass barriers will be used in various locations.

What are the face mask/covering requirements?

To protect all Faribault Public Schools students and employees, face masks/coverings are required. The Minnesota Department of Health and CDC state that face coverings are beneficial in preventing the spread of COVID-19. Wearing a face mask/covering could prevent the district from having to move to a distance learning or hybrid learning scenario.

- All are required to wear a face mask/covering in common areas, holding areas, on buses and during transitions and class changes.
- Medical and special circumstances will be considered.
- FPS asks students and employees to provide their own face covering each day.
- The district will provide ONE washable mask per student and employee at the beginning of the school year.
- Face masks will be on hand for those who may forget periodically.
- Face masks must follow the Faribault Public Schools' dress code for students policy, which includes no inappropriate designs, pictures, symbols, slogans, offensive language or political statements.

What are the guidelines for face shields?

A face shield (a clear plastic barrier that covers the face) allows visibility of facial expressions and lip movements for speech perception and may be used as an alternative to a face covering/mask in the following situations:

Among students in Kindergarten through grade 8 when wearing a face covering is problematic.

- By teachers, when wearing a face covering may impede the educational process.
- For staff, students or visitors who cannot tolerate a face covering due to a developmental, medical, or behavioral health condition.
- For staff providing direct support student services when a face covering impedes the service being provided.

NOTE: Guidelines for face coverings/masks and other Personal Protective Equipment (PPE) will be adjusted based on Minnesota Department of Health and CDC guidelines.

Principals will provide further information on how these health and safety plans will be implemented at each individual building.

STUDENT AND STAFF SCREENING PROTOCOLS

The following procedures are being implemented to assess student/staff/visitor health status prior to entering the school and for families and employees to report when they are sick or experiencing symptoms.

Students

Families are encouraged to self-monitor their child for signs and symptoms of illness. Students exhibiting any of the symptoms from Section 1 are to stay home from school. Families should contact their respective school/program administrator to report the student's illness and keep Faribault Public Schools informed if the condition worsens. Faribault Public Schools encourages families to contact their medical provider to determine the need for testing if students exhibit multiple symptoms from Section 1 and/or have checked any of the boxes in Section 2.

Daily home screening for students

Parents: Please complete this short check each morning and report your child's information in the morning before your child leaves for school.

SECTION 1: Symptoms

If your child has any of the following symptoms, that indicates a possible illness that may decrease the student's ability to learn and also put them at risk for spreading illness to others. Please check your child for these symptoms:

- Temperature 100 degrees Fahrenheit or higher when taken by mouth
- Sore throat
- New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache, especially with a fever

SECTION 2: Close contact/potential exposure

In the past 14 days, has your been in close contact (6 feet or less for more than 15 minutes) with someone diagnosed with COVID-19?

- Yes
- No

STUDENT AND STAFF SCREENING PROTOCOLS

Staff

Staff will be required to self-monitor for signs and symptoms of COVID-19 as above for students. The following policies and procedures are being implemented to assess employees' health status prior to entering the workplace and for employees to report when they are sick or experiencing symptoms.

Assess health status prior to reporting to work

Employees should use the Daily Home Screening for Students EACH DAY to assess their health status prior to reporting to work. This checklist should be completed prior to taking any fever reducing medicine.

Employees exhibiting any of the symptoms in Section 1 are to stay home from work. The employee will log their absence in the Absence Management and then will contact Human Resources (507-333-6013) for further follow-up. Faribault Public Schools encourages employees to contact their medical provider to determine the need for testing if they exhibit multiple symptoms from Section 1 and/or have checked any of the boxes in Section 2.

Leave work immediately if symptoms appear throughout the work day

Employees who have the onset of COVID-19 related symptoms throughout the work day should immediately notify their supervisor and Human Resources and leave the premises immediately. If the employee is not able to leave immediately, they should self-isolate in an unoccupied area of the building until they are able to do so. Employees are encouraged to contact their medical provider to determine the need for testing.

Visitors/contractors/vendors

Visitors/contractors/vendors will be encouraged to do business with Faribault Public Schools via the phone or computer. For those required to visit a Faribault Public Schools facility the following screening questions will be asked prior to entry:

SECTION 1: Symptoms

Do you have:

- Temperature 100 degrees Fahrenheit or higher when taken by mouth;
- Sore throat;
- New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline);
- Diarrhea, vomiting, or abdominal pain; or
- New onset of severe headache, especially with a fever.

SECTION 2: Close contact/potential exposure

In the past 14 days, have you been in close contact (6 feet or less for more than 15 minutes) with someone diagnosed with COVID-19?

If YES to any of these questions you will not be allowed into a Faribault Public Schools facility.

EARLY CHILDHOOD

Preschool programming will run in-person learning. Some of our building specific procedures will include:

- Daily health screening for students at each classroom entrance.
- Strict exclusion policy for students and staff presenting symptoms.
- Meals will be served in the classroom.
- Increased hand washing throughout the day for staff and students.
- Staff will wear masks and sanitize rooms and materials daily.
- Parents will not be allowed in the classroom at drop-off or pick-up times.
- Parents and guardians will wear masks at drop-off and pick-up time.

Classes will start on Tuesday, Sep 8. Preschool teachers will be contacting families to set-up a conference to meet and share important information about our preschool year. Conferences will take place the week of Aug. 31 and can be flexible to meet the needs for in-person or virtual attendance. These meetings will include some of the health and safety measures and compliance, curriculum and Pyramid model overviews, early childhood indicators of progress, and getting connected with seesaw.

If families are not yet ready to send their child to an in-person learning setting, families will have the option to choose distance learning. Choosing this option would hold a child's spot in our learning program until that transition is the right choice for the family.

Early childhood screenings have resumed with similar health and safety measures as preschool and within the district. If your child has not been screened and is three, four, or five years old, and/or enrolled in our programming, it is required within 90 days of enrollment. Please visit our website or call our office to set up an appointment.

Early Childhood Family Education classes are in the process of being finalized in a variety of models to meet the needs of our young families across the community. Classes will be held at the Faribault Education Center both inside and outside (when weather permits) and virtually. Please see our website for more information and class offerings: <https://mecc.faribault.k12.mn.us/>

Olivia Sage,
Early Childhood Coordinator

FARIBAULT TRANSPORTATION

Faribault Transportation and Faribault Schools is working diligently to provide the safest and most efficient means of transportation this school year. We are working on modifying routes to limit bus capacity in order to keep the most distance between students on the bus. In addition, we're implementing procedures to assist further in keeping our riders and drivers as safe as possible. Please inform your bus riders of the following information:

- Parents must perform a health screening on students before sending them on the bus, confirming there is no temperature greater than 100.4 degrees Fahrenheit, no shortness of breath, fever, or cough, and there has been no exposure to others who have tested positive for COVID-19.
- Students should spread out on the bus, keeping as much space between other riders as possible and not double up in a seat unless necessary. Students from the same households are allowed to sit together.
- Students will not sit in the first row behind the driver. This will allow for social distancing so the driver is able to remove his/her mask when driving so to not cause a distraction when operating the bus.
- Masks are mandatory for students riding the bus and entering/exiting the buses unless approved health concerns allow for students to go mask free.
- Hand sanitizer will be provided on each bus. We ask that students use the hand sanitizer while entering and exiting the bus.
- Students will load the buses from the back to the front and will unload seat by seat, staying seated until the seat next to them has been vacated.
- Students should social distance and wear masks at bus stops.
- Please do not send your child to school if he/she is sick.
- Buses will be deep cleaned after each AM and PM route. CDC approved methods and cleaning supplies will be used to ensure the cleanest buses possible for the next group of riders.
- Drivers, bus aides, and staff will undergo daily health screenings at the bus company.
- Bus drivers will wear masks while on the bus, with the ability to remove their mask while driving.
- Roof hatches and windows will be opened to allow for additional air flow, weather permitting.

Families will receive a letter regarding transportation details later this week. Please don't hesitate to call Faribault Transportation at 507-334-5121 with any questions. We look forward to a safe and productive school year!

Garrett Regan
Manager, Faribault Transportation Service

SODEXO FOOD SERVICE

From the very beginning of the coronavirus pandemic, Sodexo has helped schools around the globe navigate these never-before-imagined circumstances, ensuring the safety and wellbeing of our students. Those experiences, combined with our unique expertise, have allowed us to create a systematic, comprehensive approach to the way we'll serve our Faribault Public Schools families. Simply put, Sodexo was made for this moment.

We have created a phased approach specifically for Faribault Public Schools. This approach allows our team to proactively support each level of transition that our schools move through with appropriate tools and techniques that strictly follow local, state, and federal guidelines. These tools will include:

- **Team Member Health** – Staff members will regularly report on their health, and we'll conduct daily temperature checks for our team.
- **Hand Washing** – As has always been the case, staff members will continue to wash hands frequently.
- **Personal Protective Equipment (PPE)** – Our foodservice team will wear masks and gloves when preparing food and interacting with our students.
- **Flexible Menu Choices** – Whether our students are eating meals in the cafeteria, in the classroom or taking meals home, we've developed new menus and new menu items tailored specifically for each scenario.
- **Food Safety** – We will be eliminating some self-serve options and self-service stations while introducing some new (and always delicious) individually wrapped products.
- **Cleaning, Sanitizing and Disinfecting** – We will be introducing new, enhanced cleaning procedures. High-touch surfaces and high traffic areas will be cleaned frequently with professional-grade products proven effective against viruses.
- **Social Distancing Measures** – When students are in our cafeteria, they'll find seating, floor markings and other space configurations that promote social distancing. We'll also be working closely with the school on the number of students that are in the cafeteria at a single time.

Eating meals with friends at school is an important part of every student's day. We're committed to serving the healthy, nutritious meals that you expect in a safe, welcoming environment. The road ahead is sure to have twists and turns, but as we navigate it together, we'll continue to put the health and safety of your student above all else.

If I can answer any questions, I hope you won't hesitate to let me know. You can reach me at bboehm@faribault.k12.mn.us or 507-333-6773.

Brenda Boehm,
Director of Food Services

KIDS WORLD

Kids World will be providing childcare during the 2020-2021 school year for all three learning scenarios. All families registered with Faribault Public Schools ages 5 through 12 are eligible for Kids World. Tier I employed families will have priority registration.

In-Person and Hybrid Learning Plan Schedule

- Before school care starts at 6:30 a.m. until school starts for that building or program.
- After school care starts at the end of the school day and closes at 6 p.m.

Distance Learning Plan Schedule

- Full day care is offered from 6:30 a.m. to 6 p.m.
- Before and after care for all families, including Tier One is fee-based.
- Tier I families qualify for free care during school hours.

Tier I

- Healthcare and public health
- Law enforcement, public safety and first responders
- Food and agriculture
- Judicial Branch (essential services)
- National Guard (activated under a Governor Executive Order)
- Educators and school staff providing in-person instruction or caring for children of critical workers
- Childcare and school-age care providers

For more information on Kids World, please go to:

<https://www.faribault.k12.mn.us/community-education/kids-world> or call 507-333-6005.

Coming up

August 25-27

Teachers will engage in professional learning to support implementation of high-quality teaching and learning within in-person/hybrid/distance learning models. Topics will include student engagement, equity, building relationships with students and families, social and emotional learning, and technology.

August 31-September 4

Staff will engage in planning and collaboration with their grade level, department and building colleagues in preparation for the start of the 2020-21 school year. Staff will ensure all components of the preparedness plan are in place.

September 8

First day of school for students in Pre-K, Grades 6, 9-12

September 9

First day of school for students in Grades 7-8

September 10

First day of school for students in Grades K-5

We will provide updates on changes to our learning model via our website, Parent Campus Portal, telephone and email.

For the latest updates: faribault.k12.mn.us
