

MIDDLE SCHOOL VIRTUAL LEARNING SCHEDULE

Students will participate in synchronous and asynchronous learning following their daily schedule. Synchronous portions of the day are highlighted in pink and asynchronous portions of the day are in white.

Synchronous learning is learning that happens at the same time for the instructor and the learners, meaning that there's real-time interaction between them. Asynchronous learning applies to tasks that students complete on their own (or in small groups), which is not being delivered by the teacher in real-time.
