Independent Work	2:30-3:50 pm (80 mins)	El estudiante trabajará de forma independiente en las tareas del salón de clases.			El estudiante trabajará de forma independiente en las tareas del salón de clases.		

The new middle school virtual distance learning schedule is organized by quarters. Students will rotate courses each quarter.

- Students have three classes per day. Each class period is 80 minutes long.
- Each student will take:
  - Two Core classes per quarter (Language Arts, Math, Science, or Social Studies)
  - Plus one class that will be a combination of PE and/or Electives which will be on an alternating A/B schedule.
    - A: Monday/Thursday
    - B: Tuesday/Friday

This model allows students to concentrate on fewer classes at a time, and gives teachers fewer students per semester so that interpersonal time is increased. Students will have the opportunity to learn more effectively as they are actively involved in the learning process.
