Independent Work	12:40 – 2:00 pm (80 mins)	Student will work Independently on classroom assignments.			Student will work Independently on classroom assignments.		

The new high school virtual distance learning schedule is organized by quarters. Students will rotate courses each quarter. Students will take a total of six courses throughout the year; three per quarter.

- Students have three classes per day
- Each class period is 80 minutes long.
- Each course is worth 5 credits per quarter

This model allows students to concentrate on fewer classes at a time, and gives teachers fewer students per semester so that interpersonal time is increased. Students will have the opportunity to learn more effectively as they are actively involved in the learning process.
