

Visitors and Observations in School

1. Any person wishing to visit the school and/or observe any student program must obtain prior approval from the Administration or his/her designee of the respective program.
2. A visitor to the school or program must be able to articulate a legitimate reason for his/her proposed visit and/or observation. Where the visitation involves direct contact with Bethany Public School District (District) students or observation of an identified student or student program, the visitor must have a sufficient educational nexus with the District, its educational programs or the student to support such request.
3. All visits must be reasonable in length and conducted in a manner designed to minimize disruption to the District's educational programs.
4. When a parent/guardian makes a request to observe an identified student or student program, the request will be reviewed with the student's parent/guardian to determine the purpose of the observation, specific questions being addressed, the location(s) of the observation, and the date, time, and length of the observation.
5. When determining whether to approve a request to visit and/or observe individual students or student programs, the responsible administrator or his/her designee shall consider the following factors:
 - a. the frequency of visits;
 - b. the duration of the visit;
 - c. the number of visitors involved;
 - d. the effect of the visit on a particular class or activity;
 - e. the age of the students;
 - f. the nature of the class or program;
 - g. the potential for disclosure of confidential personally identifiable student information;
 - h. whether the visitor/observer has a legitimate educational interest in visiting the school;
 - i. whether the visitor/observer has professional ethical obligations not to disclose any personally identifiable student information;
 - j. any safety risk to students and school staff; and
 - k. compliance with the Board's Guidelines for Independent Educational Evaluations, if applicable.
6. The responsible administrator or his/her designee has the discretion to limit, or refuse, requests for visits and/or observations of student programs in light of the above criteria. When a requested observation is refused, the responsible administrator will provide the parent/guardian with the reason for the decision and will work to develop alternative ways for the parent/guardian to obtain the information the parent/guardian seeks.
7. If the responsible administrator or his/her designee approves a request to visit the school and/or observe a student program, arrangements must be made in advance to ensure that the visit will not disrupt educational programs. The length and scope of any visit shall be determined by the responsible administrator or his/her designee in accordance with these regulations and accompanying Board policy. The responsible administrator shall determine a reasonable amount of time for observations of individual students or student programs.

8. Upon arrival, all visitors must comply with any and all applicable building security procedures, including but not limited to utilizing security buzzers for access, complying with requests for photo identification, reporting directly to and signing in and out at the visitors' reception area of the school office, prominently displaying visitors' badges or other identification required for visitors to the school, limiting access to those areas of the buildings and grounds for which the visitors have authorized access, and complying with directives of school officials at all times.
9. The District has an obligation to maintain the confidentiality of personally identifiable student information. All visitors and observers must restrict their visits and observations to the purpose identified in the request to visit or observe and are strictly prohibited from observing or collecting information on other students within the school. If the visitor/observer views, accesses or otherwise obtains personally identifiable student information concerning another student, the visitor/observer must notify the building Principal or responsible administrator as soon as possible.
10. All visitors and observers permitted inside the school building or on school grounds must comply with all school health and safety protocols in place at the time, including any health screening protocols.
11. A refusal to comply with any of the Board's policy provisions and/or regulations concerning visitors shall constitute grounds for denial of the visitor's privileges, as determined appropriate by the building principal or his/her designee. Such refusal may also result in a referral to law enforcement personnel, as determined appropriate by the building principal or his/her designee.
