

Celebrate with a gift to your library!

As you think about the gifts you choose for the celebrations in your life, please consider the Hall Memorial Library's commemorative gift program. Through this program, donations are used to purchase library books for the Hall Memorial Library in honor of your special someone. The books will have bookplates inscribed with the names of the donor and the person being honored. Donating a book to our public library may be a most appropriate way to honor a special teacher, volunteer, group officer or other special community person. It may also be a very special gift for a birthday, anniversary, graduation, retirement, memorial or any other occasion you would like to commemorate.

After receiving your donation, the librarian will select books to enhance the library collection. Gifts will be acknowledged to both the donor and the honoree.

Library edition quality books average from fifteen to twenty dollars for children's books, and twenty to thirty dollars for adult books. Families and groups are welcome to make collective donations.

The Hall Memorial Library hopes you will consider this library enhancement project. Your donation will be a truly lasting gift that our community can share and enjoy for years to come.
