## Consent to Survey

In order to be in compliance with new directives issued by the State of New Jersey, schools must obtain parental consent in order to survey students regarding behaviors related to adolescent social and health issues. Surveys are voluntary and anonymous. No one will ever know how any individual responded to the survey. Although we generally only conduct surveys regarding these issues occasionally, the survey results allow us to target areas for concern. Services and programs designed to address these areas of concern allow us to meet the needs of students and their families based on the survey results.

Please complete the bottom of this form indicating whether or not we have permission to survey your son/daughter in school. Names are never collected as part of the survey process, so all information remains anonymous. **A separate form should be completed for each student you have enrolled at the school.**
