# Technology Integration JAWS

## Bangkok, Harrow International School

FOBISIA CPD EVENTS

Date: 1st/2nd May 2015

Venue: Harrow International School, Bangkok

Topic: Technology Integration

Focus: Sharing models of good practice with a view to developing a working policy for Schools

Christopher Roche (chris\_r@harrowschool.ac.th)

HARROW  
INTERNATIONAL SCHOOL  
BANGKOK

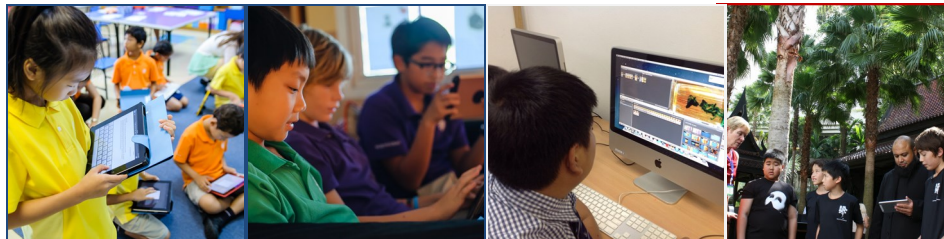

**The job-alike workshop was created as a format to allow group of like-minded professionals to create opportunities for curriculum-based CPD that relies on the skills and knowledge of the delegates themselves rather than relying on expensive key note speakers.**

**These workshops are an opportunity for you to share good practice and co-construct new knowledge with other FOBISIA teachers.**

**This is a professional event. Registered participants are required to contribute to the agenda and to contribute to the presentations.**

The impact of technology on education has been transformational in many of our Schools. With many seeking to fully leverage the potential of these tools there has arisen a need for teachers to explore how technology can be fully utilized to enhance and transform teaching and learning.

This JAWS will seek to work collaboratively to develop how *Technology Integration* actually looks in Schools. With a focus on the Why? How? And What?. Participants will work collaboratively to develop systems, strategies and policies which will work for their particular organisation.
