

Critical Thinking across the Curriculum JAWS
Jerudong International School, Brunei
Friday 4th and Saturday 5th March 2016

Developing critical thinking amongst students is a key strategic aim of Jerudong International School. This Job Alike Workshop is an opportunity for FOBISIA teachers, curriculum leaders and members of school leadership to share good practice and develop new ideas about how we develop critical thinking across the curriculum from Key stage 2 to Key stage 5. All participants will be actively engaged in creating the agenda to ensure that the two day event meets the needs and wishes of those attending. All sessions will be delivered by those participating in the workshop.

Some initial ideas for session topics are listed below:

- Encouraging Critical thinking in International Schools.
- The thinking skills continuum from KS2 to KS5
- Criticality in Digital learning
- Developing a whole school ethos
- Philosophy for Children
- Harkness debates
- Enquiry based learning
- TOK teaching, essays and presentations
- Developing questioning to promote criticality
- Improving Questioning

The above sessions are merely suggestions and may be adapted or dropped according to the wishes of those involved. It is hoped that the agenda will evolve based on the experience and interests of those attending. A Google Drive Folder will be shared with all delegates to build the agenda collaboratively as well as sharing resources in the run up to this event.
