

# FOBISIA

ESTABLISHED IN 1988

## **Community Service JAWs and Conference** **The British School, Kathmandu - 20th and 21st May 2016**

### **What is the theme of the conference?**

A school-community partnership involves "the connections between schools and community individuals, organizations, and businesses that are forged to promote students' social, emotional, physical, and intellectual development" (Saunders, 2001)

"Community service [learning] provides an opportunity to apply academic learning to real human needs and to make the knowledge gained usable in one's thinking beyond the situation in which the learning occurred." (Hedin 1989)

There are a number of thematic areas that we envisage the conference to cover and these include:

- Understanding community service and how to 'get it right'.
- Sharing ideas on successful projects and help each other with issues that arise.
- Help FOBISIA schools improve on already existing projects.
- Encourage and help schools set up new projects.
- Create lasting links between FOBISIA schools on community service and possibly foster joint projects.

**Agenda items** (additional items can be added by participants):
