

Planning for Innovative Curriculum Design and Student Learning JAWS

Please
Register
HERE by
20th August
2019

We offer the opportunity to explore and share experiences of how an innovative curriculum and pedagogy can make student (and teacher learning) deeper, transferable, contextualized, experiential and purposeful for learners. This JAWS will explore different approaches to enhance curriculum design and pedagogy through various innovative approaches.

The two days will be based around workshops hosted by the teachers attending

Proposed topics:

- Concept Based Learning
- Enquiry Based Learning
- STEAM Learning
- Forest and Beach Schools
- Reggio Emilia Philosophy

All delegates will be encouraged to share their own experiences of innovative curriculum design and learning in order to better inspire and engage their learners.

For more information, please contact:

Russell Moriarty, Leader of Discovery Learning

rmoriarty@dbis.edu.hk

Susan Walter, Head of Primary

swalter@dbis.edu.hk

Cost
US\$60
