

Bears Protect Bears Commitment
Sponsored by the White Bear Lake Area Educators, Local #7286

White Bear Lake Area Educators are dedicated to the community in which they work and teach. As part of this dedication, they commit to individual behaviors that will help protect our community of bears during COVID-19.

Join White Bear Lake Area Educators in this commitment! To do so, cut out the masked-up, hand-sanitized bear, color it any way you like, and post it in your front window for all to see. Ask others around you to take the pledge.

I commit to protect our White Bear Lake community by taking the following actions:

- 1) Wear a mask in public spaces
- 2) Socially distance (stay six feet apart and avoid gatherings of more than ten)
- 3) Wash my hands
- 4) Stay home at any sign of symptoms
