

CAMPUS/FACILITY RESPONSE RUBRIC

Outside of state, county, or local executive order, district-wide closures should occur under only the most extreme circumstance. Understanding that things can change rapidly, decisions may be adjusted as the situation is fluid. Stages are based on multiple data points by campus, though if cases are isolated to a specific grade level or program a more localized approach may be adopted.

RISK CATEGORIES	LOW	MODERATE	HIGH
	Under 3% of the Campus/Facility are Confirmed COVID-19 Positive	3% to 5% of the Campus/Facility are Confirmed COVID-19 Positive	5% or higher of the Campus/Facility are Confirmed COVID-19 Positive
	In addition to COVID-19 positive cases, increased absences related to COVID-like symptoms may also be assessed for widespread transmission control.		
Identified Case Tracing is Possible	Close Classroom for 24h for cleaning and until the school has identified close contacts. Exclude contacts from the building for 14d. Reinforce prevention measures. Restrict events and gatherings.		
Identified Case Tracing is Not Possible	Consider closing a section of the building depending upon degree of involvement for 24h for cleaning and until the school has identified close contacts. Exclude contacts from the building for 14d. Reinforce prevention measures. Restrict events and gatherings.		
Two or More Linked Cases Tracing is Possible	Follow "Identified Cases Tracing is Possible". If exposure is widespread, consider partial or complete building closure for 14 days.	Follow "Identified Cases Tracing is Possible". If exposure is widespread, consider partial or complete building closure for 14 days.	Seriously consider 14-day closure of a section of campus, grade or the entire building depending upon degree of involvement. Seriously consider 14-day building closure of extensive exposure.
Two or More Linked Cases Tracing is Not Possible	May need to consider 14d closure of a section of campus or grade depending upon degree of involvement and/or consider 14d BUILDING closure if extensive exposure.	May need to consider 14d closure of a section of or grade depending upon degree of involvement and/or consider 14d BUILDING closure if extensive exposure.	Seriously consider 14d closure of a section of campus or grade depending upon degree of involvement and/or seriously consider 14d BUILDING closure if extensive exposure.
Increasing Number of Cases Identified Within 14 days	Seriously consider 14d BUILDING closure unless circumstances dictate otherwise.	Seriously consider 14d BUILDING closure unless circumstances dictate otherwise.	Minimum 14d BUILDING closure unless circumstances dictate otherwise.
Academic and Instructional Continuity	In person learners who are at home due to COVID related illness, exposure or closure will be taught remotely.	In person learners who are at home due to COVID related illness, exposure or closure will be taught remotely.	In person learners who are at home due to COVID related illness, exposure or closure will be taught remotely.
Extra and Co-curricular Status	UIL or extracurricular activities following UIL recommendations.	UIL or extracurricular activities limited or suspended.	No extracurricular activities.
Campus/Facility Status	Controlled access of all district campuses and facilities. Limited access to the public (invitation only) following social distancing guidelines.	Controlled access of all district campuses and facilities. Limited access to the public (invitation only) following social distancing guidelines.	Controlled access of all district campuses and facilities. Limited access to the public (invitation only) following social distancing guidelines.
Personal Safety Protocol	<ul style="list-style-type: none"> • Social distancing with visual reminders • Face covering required 4th grade and higher • Increased hand hygiene and washing • Reduce gatherings • Limit use of shared supplies 	<ul style="list-style-type: none"> • Social distancing with visual reminders • Face covering required 4th grade and higher • Increased hand hygiene and washing • Greatly reduce gatherings • Cancel the use of shared supplies if sanitation between use is not possible 	<ul style="list-style-type: none"> • Social distancing with visual reminders • Face covering required 4th grade and higher • Increased hand hygiene and washing • Suspend gatherings • Cancel the use of shared supplies if sanitation between use is not possible
Operations	Restrooms, handrails, and other common areas are sanitized frequently. Assigned seating. Deep cleaning due to area closures when required.	Affected Classroom/Facility is closed for deep cleaning. Closures may last between 24 hours and 14 days depending on spread. Restrooms, handrails, and other common areas are sanitized frequently. Assigned seating.	Affected Classroom/Facility is closed for deep cleaning. Closures may last between 24 hours and 14 days depending on spread.
