

Machinist Tech 2

Standards

1. Students will be able to understand safe practices and professional machine shop procedures.
2. Students will be able to apply mathematical concepts.
3. Students will be able to interpret engineering drawings and control documents.
4. Students will be able to properly perform measurement/inspection.
5. Students will be able to understand project planning and recognize different manufacturing materials and processes.
6. Students will be able to understand and demonstrate the use of drilling and grinding machines and band saws.
7. Students will be able to understand and demonstrate the use of milling machines.
8. Students will be able to understand and demonstrate the use of metal lathes.
9. Students will be able to understand CNC machining processes.
10. Students will understand the importance of career readiness skills as it relates to the workplace.
