**Montgomery County Board of Developmental Disabilities Services (MCBDDS)** Montgomery County Board of Developmental Disabilities Services (MCBDDS) has a locally funded Family Home Services Program (FHSP) available. This program may help to provide funding for support and services to families caring for a family member with mental retardation and or developmental disabilities living at home with their parent, guardian, and/or primary caregiver. Eligibility for FHSP is determined by the MCBDDS Intake and Eligibility Department. Parents of a preschool child with a current IEP who is enrolled in preschool within Montgomery County may contact the preschool family consultant at 457.2767 or check out their webpage at <http://www.mcbdds.org/index.php?page=family-home>

**Centerville Parent Mentor** Centerville/Oakwood's parent mentor program exists to provide training, support, and information to families of students with disabilities. Our parent mentor is Cathy Staton, a parent of a child with a disability. She can be reached via email or phone:  
Dawn Millhouse  
438-6030 Ext. 2037

You may wish to check out her webpage at <https://www.centerville.k12.oh.us/ParentMentors>

## **The Bureau for Children with Medical Handicaps Program (BCMh)**

The Bureau for Children with Medical Handicaps Program (BCMh) provides assistance to families who have children with special health care needs who meet the medical and financial eligibility criteria. All criteria are for children under the age of 21 who have special health care needs and are residents of the State of Ohio. In order to enroll in BCMh, a [Medical Application Form](#) must be submitted by a [BCMh-approved physician](#). [Local health department](#) public health nurses can provide a referral to start the enrollment process. Dependent upon the program, financial eligibility may or may not be a criteria.

### **BCMh and Healthy Start**

Families who meet the income standards for the Healthy Start Program of the Ohio Department of Job and Family Services (ODJFS) will be required to apply to that program for coverage of medical services for their child. The [Healthy Start Guidelines](#) are in the BCMh financial application packet, along with instructions on how to apply. If over-income for the Healthy Start Program, the CPA, denial letter from Healthy Start and income verifications must be sent to BCMh to determine eligibility for BCMh.

### **If a Family is Determined to be "Over Income" for the BCMh Program**

If BCMh sends the family a denial letter, stating they are "over-income" for the Treatment Program, they will also receive information about the BCMh's cost share program. They will be given a cost share dollar amount and [BCMh Information Sheet: Steps to Meet your Cost Share](#) on how they can meet that cost share amount. When the family provides proof to BCMh that they have spent that amount of money on medical costs including dental, and/or vision bills for any member of their family, they will have met their cost share. On the date the cost share is met, the child will become eligible for the Treatment Program for one year.

Dayton, OH 45402

(937) 225-4395

### **West Carrollton WIC Office**

The Ohio WIC Program serves families up to 185% of the Department of Health and Human Services poverty income guidelines. The somewhat liberal guidelines make it possible for many working families to qualify for WIC services. WIC participants are issued coupons at each visit to purchase specific foods at local grocery stores that are contracted to accept WIC coupons. WIC foods are high in one or more of the following nutrients: protein, calcium, iron, fiber, and vitamins A and C. These are the nutrients frequently lacking in the diets of the program's target population. Different food packages are provided for different categories of participants.
