

Meet Rhyan. Our New Intern!

The Renton Innovation Zone Partnership (RIZP) has hired a Communications & Marketing Intern and her name is Rhyan Benning, an incoming Senior at Renton High School! Rhyan started in the beginning of August and will be working closely with our Assistant Director of Communications & Development and Operations Manager. Her role consists of learning how to make meaningful relationships, developing new marketing strategies, creating innovative visuals, administration duties and much more!

Each week Rhyan works on creating marketing materials, stuffing swag bags, designing cool social media templates, conducting administration and clerical duties, preparing STEM toolkits, decorating the RIZP office, and much more! Recently, Rhyan helped create a short how-to Kindergarten registration video for parents whose children will be entering the Renton School District. Alongside this, she has worked with various community-based organizations, select staff from the Renton School District and the entire RIZP team!

While juggling this internship position, Rhyan works part-time as a Food Server at The LakeShore, where she serves the elderly and provides hospitality services to guests.

Rhyan is also working hard, applying to colleges and looking for scholarships (University of Washington, Florida A&M University, North Carolina A&T University, and Texas Southern University), with hopes to become a Physical Therapist.

When she's not working, she's spending time with her family and friends. Rhyan also loves to cook and binge watch tv shows.

Welcome to the RIZP Team Rhyan! We are delighted to have you as our Communications & Marketing Intern!
