CERTIFIED PUBLIC ACCOUNTANTS 611 E WISCONSIN ST PORTAGE, WISCONSIN 53901

#### INDEPENDENT AUDITOR'S REPORT

Board of Education Lodi School District Lodi, Wisconsin

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lodi School District (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Education Lodi School District Page Two

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lodi School District as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedules, the schedule of funding progress for postemployment benefit plans other than pensions and the schedules for pension related items on pages 40 through 46 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information. Board of Education Lodi School District Page Three

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The financial information listed in the table of contents as other supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Guidelines, and is also not a required part of the basic financial statements.

This information, including the schedule of expenditures of federal and state awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

Net Change in Fund Balances - Total Governmental Funds		\$	(5,196,434)
Amounts reported for governmental activities in the statement of activities are different because:			
The acquisition of capital assets are reported in the governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities.			
Capital outlay reported in governmental fund statements Depreciation expense reported in the statement of activities Amount by which capital outlays are greater (less) than depreciation in the current period.	6,294,407 (804,456)		5,489,951
in the current period.			0,400,001
Certain employee benefits are reported in the governmental funds when amounts are paid. The statement of activities reports the value of benefits earned			(32,919)
during the year. This year the accrual of these benefits increased by:			(32,919)
Repayment of principal on long-term debt is reported in the governmental funds as an expenditure, but is reported as a reduction in long-term debt in the			
statement of net position and does not affect the statement of activities. The amount of long-term debt principal payments in the current year is:			1,321,567
However in the statement of net position, they are deferred and amortized over the life of the debt and reported as revenue or expense in the statement of activities.			
Amortization of bond premium Amortization of bond discount			60,844 (18,932)
Employer pension contributions are reported in the governmental funds when the amounts are paid but not reported in the statement of activities since they are included in the net pension asset and deferred outflows.			674,946
Pension expense is included in the statement of activities but not reported in the governmental funds since it is an actuarially determined amount for the pension plan.			(1,552,786)
Employer OPEB and stipend contributions are reported in the governmental funds when the amounts are paid but not reported in the statement of activities since they are included in the net OPEB liability, the net stipend liability, and deferred outflows.			140,671
OPEB expense and stipend expense is included in the statement of activities but not reported in the governmental funds since it is an actuarially determined amount for the OPEB plan.			(144,950)
In governmental funds, interest payments on outstanding long term debt are reported as an expenditure when paid. In the statement of activities, interest is reported as incurred.			
The amount of interest paid during the current period	663,068		
The amount of interest accrued during the current period Interest paid is greater (less) than interest accrued by	(652,880)		10,188

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Lodi School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

#### A. Reporting Entity

The Lodi School District is organized as a common school district governed by an elected seven-member board. The District is comprised of all or parts of eight taxing districts.

The accompanying financial statements present the activities of the Lodi School District. The school district is not a component unit of another reporting entity nor does it have any component units.

The reporting entity for the District is based upon criteria set forth by the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*. The financial reporting entity consists of (a) organizations for which the stand-alone government is financially accountable and (b) the stand-alone government that is controlled by a separately elected governing body that is legally separate and is fiscally independent. All of the accounts of the District comprise the stand-alone government.

#### B. Basis of Presentation

#### District-Wide Statements

The statement of net position and the statement of activities present financial information about the District's governmental and business-type activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients for goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### B. Basis of Presentation (Continued)

Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as other governmental funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal value. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

General Fund - This is the District's primary operating fund. It accounts for all financial activity that is not required to be accounted for in another fund. This includes the General Fund (Fund 10) and the Special Education Fund (Fund 27), which accounts for the activities associated with providing educational programs for students with disabilities. Excess expenditures in Fund 27 are financed with a transfer from Fund 10.

Debt Service Fund - This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental activities.

Capital Projects Fund - This fund accounts for the activities and resources used to finance the acquisition or construction of capital facilities, equipment, and other capital-related resources.

The District operates one enterprise fund, the Food Service Fund. This fund accounts for the activities of the District's food service, generally school hot lunch program.

The District accounts for assets held as an agent for various student and parent organizations in an Agency Fund.

The District accounts for assets held that were accumulated from donations that are used to pay scholarships in the Private-Purpose Trust Funds.

#### C. Measurement Focus and Basis of Accounting

The district-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus and Basis of Accounting (Continued)

Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, includes property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Reports for the District's food service fund are prepared following the Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or after November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with Governmental Accounting Standards Board (GASB) pronouncements.

#### D. Assets and Liabilities

Cash and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. All funds share common (pooled) checking and investment accounts unless regulations require separate investment accounts.

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. Agency issues, high-grade commercial paper, and the local government pooled investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled investment fund.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Assets and Liabilities (Continued)

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statements as increases or decreases in investment income.

Property Tax Levy

Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, town, and village treasurers or clerks who then make proportional settlement with the school district and county treasurer for those taxes collected on their behalf. Second installment real estate taxes and delinquent taxes are collected by the county treasurer who then makes settlement with the city, town, village and school districts before retaining any for county purposes.

The District's property taxes are levied on or before October 31st on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or in two installments with the first installment payable the subsequent January 31st, and a final payment no later than the following July 31st. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15th, and by the 20th of each subsequent month thereafter. On or before August 20th, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

Property taxes are recognized as revenue in the period for which the taxes are levied. The 2018 tax levy is used to finance operations of the District's fiscal year ended June 30, 2019. All property taxes are considered due on January 1st, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30th and are available to pay current liabilities.

#### Accounts Receivable

All accounts receivable are shown at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since such an allowance would not be material.

#### Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased. Prepaid items represent payments made by the District for which benefits extend beyond June 30.

- 17 -

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Assets and Liabilities (Continued)

A reserve for these non-liquid assets (inventories and prepaid items) has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures, except in cases where inventories are offset by deferred revenues if there is a balance at year end.

Due To/Due From Other Funds

The amounts reported on the statement of net position for due to and due from other funds represents amounts due between different fund types (governmental activities, business-type activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type.

Capital Assets

Capital assets are reported at actual cost for acquisitions. Donated assets are reported at estimated fair market value at the time received.

Capitalization thresholds (the dollar valued above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the district-wide statements and proprietary funds are as follows:

	Capitalization	Depreciation	Estimated
	Threshold	Method	Useful Life
Buildings	\$5,000	Straight-line	7-50 years
Furniture & equipment	\$5,000	Straight-line	5-20 years

Vested Employee Benefits

#### Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, Accounting for Compensated Absences. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation is attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The District employees are granted vacation and severance pay in varying amounts, based on length of service. Vacation leave earned in the preceding year must be used within one year of the employee's anniversary date.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Assets and Liabilities (Continued)

The District's policy allows employees to earn varying amounts of sick pay for each year employed, accumulating to a maximum vested amount of 120 days. A maximum of 10 days per year can be credited to contracted employees every year. Regular (Full-time) employees can be credited up to 12 days annually. After 15 years of employment, compensation is paid at the rate of \$20 per day for retiring staff and \$10 per day for teachers leaving the district.

The entire compensated absence liability is reported on the district-wide financial statements.

For governmental fund financial statements, the unpaid compensated absences are not expected to be paid using expendable available resources and, therefore, the liability is not reported.

Retirement Plans - District employees participate in the Wisconsin Retirement System. All contributions made by the District on behalf of its employees are reported as expenditures when paid.

Postemployment Benefits - Teachers or support staff who retired before July 1, 2012 the District will contribute towards their medical premiums for a period of 7 or 8 years until Medicare eligibility. All current teachers and support staff are eligible to remain on the group medical plan provided they self-pay the full premium required to continue such coverage until Medicare eligibility. The District will also provide to eligible retirees an annual 403(b) contribution in varying amounts based on hire date. The District will also fund during active years of service to all eligible teachers an annual contribution of \$750 into a teachers HRA account. The HRA may be used only during retirement and only for health insurance premiums. There are also similar 403(b) and HRA benefits for administrators and support staff.

Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Net Position - Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement for those assets.

Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### E. Fund Balance Reporting

The Lodi School District reports under provisions of Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below:

- Nonspendable, such as fund balance associated with inventories, prepaid expenses, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),
- Restricted fund balance classification includes amounts that can be spent only for the specific purposes stipulated by constitution, external resources providers, or through enabling legislation,
- Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District Board of Directors (the district's highest level of decision-making authority),
- Assigned fund balance classification is intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and
- 5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classification.

Fund balance amounts are reported in conformance with generally accepted accounting principles and shall be reclassified not less than the end of each fiscal year for general purpose financial statements. The District will report inventories, prepaid expenses, long-term receivables, and amounts legally or contractually required to be maintained intact as non-spendable. The fund balance for the spendable portion of permanent funds and balance, if any, in the special revenue trust fund, debt service funds, food service fund, postemployment employee benefit trust fund, SAGE funds, and other funds established by regulatory authority will be classified as restricted.

The Board may, from time to time, commit additional amounts of fund balance to a specific purpose. Such action shall be taken in open meeting and require the approval of a majority of the Board. Commitments of fund balance, once made, can be modified only by majority vote of the Board.

The School Board may authorize and direct an individual to assign fund balances for specific purposes; to the extent such assignment does not create a negative unassigned fund balance. As of June 30, 2019, the School Board has not authorized any individual with the authority to assign funds.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### F. Deferred Outflows/Inflows of Resources

The District reports under GASB Statement No. 65, *Items previously reported as assets and liabilities*. In addition to reporting assets and liabilities in the statement of net position and balance sheet, the following are the provisions for reporting a separate section for deferred outflows and inflows of resources:

Deferred Outflows of Resources: The District reports decreases in net position and fund balances that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statement of net position and governmental funds balance sheet. There were deferred outflows of resources reported in this year's government-wide and proprietary funds statement of net position for pension related items, which are detailed in Note 7 and OPEB related items, which are detailed in Note 8.

Deferred Inflows of Resources: The District's government-wide and governmental funds report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position and fund balance that relates to a future period. There were deferred inflows of resources reported in this year's government-wide and proprietary funds statement of net position for pension related items, which are detailed in Note 7 and OPEB related items, which are detailed in Note 8.

## NOTE 2 EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the governmental fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

#### A. Explanation of Differences Between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities

Differences between the governmental funds statement of revenues, expenditures and changes in fund balance and the statement of activities fall into one of three broad categories. The amounts shown in the columns on the following page represent:

- A) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.
- B) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording depreciation expense on those items as recorded in the statement of activities.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

# NOTE 2 EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS (CONTINUED)

#### A. Explanation of Differences Between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities (Continued)

C) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenues and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability, interest expense is recorded as incurred, and principal payments are recorded as a reduction of liabilities.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 3 CASH AND INVESTMENTS

The Debt Service Fund and Capital Projects Fund account for their transactions through separate and distinct bank and investment accounts as required by state statutes. In addition, Trust and Agency funds use separate and distinct accounts. All other funds share in common bank and investment accounts.

Deposits: Deposits in banks are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 per official custodian, per official depository institution for each ownership category and extends into the foreseeable future. In addition, the State of Wisconsin has a State Guarantee Fund, which provides a maximum of \$400,000 per public depository above the amount provided by the FDIC. However, due to the relatively small size of the Guarantee Fund in relation to the total coverage, total recovery of losses may not be available. However, since the risk that an economic event would occur of the magnitude that would deplete the fund has been assessed as minimal, this coverage has been included in computing the amounts in Category 1 below.

Investments: Wisconsin Statute 66.04(2) and 67.11(2) restrict investment of temporarily idle cash. The School Board has adopted an investment policy pursuant to these statutes, which allows the District to invest in time deposits, securities guaranteed by the U.S. Government, securities of the Wisconsin Local Government Pooled Investment Fund, the Wisconsin School District Liquid Asset Fund and commercial paper, if the security has the highest or second highest rating of a nationally recognized rating agency.

Custodial Credit Risk

Custodial Credit Risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Wisconsin statutes require repurchase agreements to be fully collateralized by bonds or securities issued or guaranteed by the federal government or its instrumentalities. The District does not have an additional custodial credit policy.

The District's deposits and investments are categorized into three categories of custodial credit risk:

- Category 1 Insured or registered which are collateralized with securities held by the District or by its agent in the District's name.
- Category 2 Uninsured and unregistered deposits and investments, which are collateralized with securities, held by the counter party's trust department or agent in the District's name.
- Category 3 Uncollateralized deposits and uninsured and unregistered investments for which the securities are held by the counter party, or by its trust department or agent but not in the District's name.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 3 CASH AND INVESTMENTS (CONTINUED)

The District's deposits and investment balances at June 30, 2019 were as follows:

	Category			Bank	Carrying
	1	2	3	Balance	Amount
Associated Bank	<u>\$650,000</u>	<u>\$ 0</u>	<u>\$3,733,429</u>	<u>\$4,383,429</u>	\$3,462,172
Thompson IM Funds					95,698
Petty Cash					3,270
Wisconsin Investment Series	Cooperativ	re			1,004,784
Total Cash					4,565,924
Less cash and investmen	ts - fiduci	ary fun	ds		(208,809)
Total					\$4,357,115

Investments are stated at cost which approximates fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2019, the fair value of the LGIP's assets was substantially equal to the District's share as reported above. The investment in the LGIP is insured against defaults in principal payments by Financial Security Assurance Incorporated.

The difference between carrying amounts and bank balances is due to outstanding checks and deposits in transit.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Wisconsin statutes limit investments in securities to the top two ratings assigned by nationally recognized statistical rating organizations.

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The District's investments at June 30, 2019 include the following:

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Depreciation - unallocated	644,211
Total Depreciation for Governmental Activities	<u>\$804,456</u>

#### NOTE 5 LONG-TERM LIABILITIES

Long-term liability balances and activity for the year ended June 30, 2019 were as follows:

Governmental Activities	Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due Within One Year
Notes and Bonds					
2017 G.O. Refunding Bonds	\$ 9,905,000	\$ 0	\$ 240,000	\$ 9,665,000	\$ O
2017 G.O. School Building Bond	11,090,000		1,035,000	10,055,000	1,025,000
State Trust Fund Loan l	58,000		13,688	44,312	14,334
State Trust Fund Loan 2	172,000		32,879	139,121	33,245
Bond premium	786,940		60,844	726,096	60,844
Bond discount	(257,093)		(18,932)	(238,161)	(18,932)
Total Notes and Bonds	21,754,847	0	1,363,479	20,391,368	1,114,491
Other Liabilities					
Vested employee benefits					
Compensated absences	137,156	32,919		170,075	32,428
Total Other Liabilities	137,156	32,919	0	170,075	32,428
Total Governmental Activities	<u>\$21,892,003</u>	<u>\$ 32,919</u>	\$1,363,479	<u>\$20,561,443</u>	<u>\$1,146,919</u>

Payments on bonds are made by the Debt Service Fund. Vested employee benefits will be liquidated by several of the governmental funds.

The School District does not currently have any long-term liabilities for businesstype activities.

On March 1, 2017, the Lodi School District received refunding bond proceeds in the amount of \$9,905,000 with an interest rate of 3.25% - 3.75%. On May 20, 2019, the District made a defeasance payment on the March 1, 2017 refunding bond in the amount of \$240,000 plus other financing fees for a total of \$275,338. The defeasance payment was deposited into an irrevocable trust with an escrow agent and invested in U.S. Governmental Securities that are used to meet the requirements of the refunding of the old debt. On the District's financial statements, the \$240,000 payment is defeased for the bonds and is removed from the bonds' liability. The total savings from the defeasance is \$122,162.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 5 LONG-TERM LIABILITIES (CONTINUED)

Total interest and other fiscal charges paid and accrued during the year:

	Expense	Paid
Bonds payable	\$652,880	\$663,068
Bond premium amortization	(60,844)	
Bond discount amortization	18,932	
Other fiscal charges	36,288	36,288
Total Interest and Other Fiscal Charges Paid	<u>\$647,256</u>	<u>\$699,356</u>

The full faith, credit, and taxing powers of the District secure all general obligation debt, including business-type activities, if any. Bonds and notes payable are comprised of the following individual issues:

	Issue	Interest	Dates of	Balance
	Dates	Rates	Maturity	6/30/19
2017 G.O. Refunding Bonds	03/01/17	3.25-3.75%	09/01/2037	\$ 9,665,000

#### NOTE 6 INTERFUND ACTIVITY

There were no interfund balances at June 30, 2019.

Interfund transfers at June 30, 2019 were as follows:

<u>Transfer To</u>	Transfer From	
General Fund	Package-Cooperative Fund	\$ 55

#### NOTE 7 EMPLOYEE RETIREMENT PLANS

### Summary of Significant Accounting Policies

*Pensions.* For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### General Information about the Pension Plan

*Plan description*. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <a href="http://etf.wi.gov/publications/cafr.htm">http://etf.wi.gov/publications/cafr.htm</a>.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided. Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 7 EMPLOYEE RETIREMENT PLANS (CONTINUED)

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

	Core Fund	Variable Fund
Year	Adjustment	Adjustment
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2
2016	0.5	(5)
2017	2.0	4.0
2018	2.4	17

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 7 EMPLOYEE RETIREMENT PLANS (CONTINUED)

During the reporting period, the WRS recognized \$687,250 in contributions from the employer.

Contribution rates as of June 30, 2019 are:

Employee Category	Employee	Employer
General(including teachers, executives,		
and elected officials)	6.7%	6.7%
Protective with Social Security	6.7%	10.7%
Protective without Social Security	6.7%	14.9%

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Lodi School District reported a liability (asset) of \$2,357,154 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2017 rolled forward to December 31, 2018. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The Lodi School District's proportion of the net pension liability (asset) was based on the Lodi School District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2018, the Lodi School District's proportion was 0.06625526%, which was an decrease of 0.00012322% from its proportion measured as of December 31, 2017.

For the year ended June 30, 2019, the Lodi School District recognized pension expense of \$1,581,586.

At June 30, 2019, the Lodi School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience Net differences between projected	\$1,815,093	\$(3,245,151)
and actual earnings on pension		
plan investments	7,015,711	(3,573,249)
Changes in assumptions Changes in proportion and differences between employer contributions and	397,330	0
proportionate share of contributions Employer contributions subsequent to	8,024	(26,081)
the measurement date Total	411,869 \$9,648,027	$\frac{0}{\$(6,844,481})$

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 7 EMPLOYEE RETIREMENT PLANS (CONTINUED)

\$411,869 reported as deferred outflows of resources related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	Deferr	ed Outflow	Defe	rred Inflows
Year ended June 30:	of F	esources	of	Resources
2019	\$3,33	8,650	\$(2,	460,721)
2020	\$2,19	8,696	\$(1,	984,891)
2021	\$2,15	4,877	\$(1,	774,752)
2022	\$1,56	5,364	\$ (+	624,116)
Thereafter	\$	0	\$	0

Actuarial assumptions. The total pension liability in the December 31, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2017
Measurement Date of Net Pension Liability (Asset)	December 31, 2018
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.0%
Discount Rate: Salary Increases:	7.0%
Inflation	3.0%
Seniority/Merit	0.1% - 5.6%
Mortality:	Wisconsin 2018 Mortality Table
Post-retirement Adjustments*	1.9%

\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates. The total pension liability for December 31, 2018 is based upon a roll-forward of the liability calculated from the December 31, 2017 actuarial valuation.

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which bestestimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

### NOTE 7 EMPLOYEE RETIREMENT PLANS (CONTINUED)

Asset Allocation Targets and Expected Returns As of December 31, 2018

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.5%. Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

Single Discount rate. A single discount rate of 7.00% was used to measure the total pension liability, as opposed to a discount rate of 7.20% for the prior year. This single discount rate is based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.71%. Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate and that employer contributions will be made at the current contribution rate and that employer contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Lodi School District's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the Lodi School District's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00 percent, as well as what the Lodi School District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1percentage-point higher (8.00 percent) than the current rate:

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at http://etf.wi.gov/publications/cafr.htm.

#### NOTE 8 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Postemployment Benefits Other Than Pensions (OPEB). For purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Lodi School District's retiree benefits plan and additions to/deductions from them have been determined on the same basis as they are reported by the Lodi School District retiree benefits plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay as you go plan.

#### General information About the OPEB and Stipend Plan

*Plan Description.* The Lodi School District operates a single-employer retiree benefit plan that provides postemployment health insurance benefits to eligible employees and their spouses. The Plan is administered by Key Benefit Concepts, LLC. There are 142 active and 11 retired members in the OPEB plan. There are 126 active and 15 retired members in the stipend plan. Benefits and eligibility for teachers, administrators, supervisors and support staff are established and amended by the governing body.

Funding Policy. The District has elected to make payments on a pay as you go basis. The District had expenditures for the year ended June 30, 2019 of \$96,690 for OPEB and \$126,600 for the stipend.

*Contributions*. The Lodi School District governing body has the authority to establish and amend the contribution requirements of the District and employees. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2018, the District's average contribution rate was 2.43 percent of employee-covered payroll for OPEB and 2.24 percent of employee-covered payroll for the stipend. Employees are not required to contribute to the plan.

#### Net OPEB and Stipend Liability

The District's net OPEB liability and net stipend liability were measured as of June 30, 2018, and the total OPEB liability and total stipend liability used to calculate the net OPEB liability and stipend liability, respectfully, were determined by an actuarial valuation as of that date.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 8 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

#### Net OPEB and Stipend Liability (Continued)

Actuarial assumptions. The total OPEB liability and total stipend liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Valuation Date:	June 30, 2018
Measurement Date:	June 30, 2018
Reporting date:	June 30, 2019
Actuarial Cost Method:	Entry Age Normal (level percent of salary)
Inflation:	2.5%
Discount rate:	3.75%
Healthcare Cost Trend Rates:	7.50%, decreasing 0.5% per year down to 6.50%, then by .10% per year down to 5.0%, and level thereafter

Actuarial assumptions were based on an experience study conducted in 2015 using the Wisconsin Retirement System experience from 2012-2014. Mortality assumptions were based on 2012 mortality tables.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period.

Discount rate. The discount rate used to measure the total OPEB liability and the total stipend liability was 3.75 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB and stipend plans' fiduciary net position was projected to be available to make all projected OPEB and stipend payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB and stipend plan investments was applied to all periods of projected benefit payments to determine the total OPEB and stipend liability.

#### Changes in the Total OPEB and Stipend Liability

	Total OPEB Liability (a)	Total Stipend Liability (a)
Balance at 6/30/2017	\$ 579,869	\$ 1,116,027
Changes for the year:		
Service cost	13,594	51,227
Interest	16,540	37,272

Thereafter	\$27,064	\$(53,417)

#### NOTE 9 RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District manages these risks through the purchase of various forms of commercial insurance. Certain commercial insurance policies have established deductible amounts whereby the district would be responsible for the portion of claims, losses and damages under the deductible limits. All funds participate in the coverages provided by the commercial insurance carriers. Each fund would be responsible for its share of losses either below the deductible amounts or for losses exceeding the coverage limits of the commercial policies. There was no significant reduction in insurance coverage from coverage in the prior year. Settlements have not exceeded insurance coverage for the past three years.

#### NOTE 10 CONTINGENCIES AND COMMITMENTS

From time to time, the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management that the likelihood is remote that any such claims or proceedings will have a material effect on the District's financial position or results of operations.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 11 FUND BALANCES

Portions of fund balances are nonspendable, restricted, committed, assigned or unassigned and not available for current expenses or expenditures. Details of these fund classifications are as follows:

		Government	al Activities		Business-Type Activities
	General Fund	Debt Service Fund	Capital Projects Fund	Other Government Funds	Food Service Fund
Restricted for:					
Debt service fund Capital projects fund Long-term capital	\$ 0	\$323,522	\$0 858,115	\$ O	\$ 0
improvement fund Capital expansion fund				1,051 556,075	
Community service fund Special revenue trust				105,033	
fund				201,111	
Food service program Pension related items Nonspendable					241,936 7,992
Unassigned	5,240,414

Special revenue		201,111
Pension related items		438,400
Total	\$2	,483,307
Business-type activities:		
Food service operations	\$	241,936
Pension related items		7,992
Total	\$	249,928

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

### NOTE 12 EXCESS OF ACTUAL EXPENDITURE OVER BUDGET

The following individual funds had an excess of actual expenditures over budget for the year ended June 30, 2019:

	Governmental
	Activities
	(Expenditures)
Debt Service Fund	\$276,288
Package-Cooperative Fund	\$235

#### NOTE 13 LIMITATION OF SCHOOL DISTRICT REVENUES

Wisconsin statutes limit the amount of revenues school districts are permitted to derive from general state aids and property taxes unless a higher amount is approved by a referendum of the taxpayers. This limitation does not apply to revenues needed for the repayment of any general obligation debt (including refinanced debt) authorized by either of the following: (a) a resolution of the School Board or a referendum prior to August 12, 1993, (b) a referendum on or after August 12, 1993.

#### NOTE 14 SUBSEQUENT EVENTS

Subsequent events are evaluated through November 19, 2019, which is the date the financial statements were available to be issued. As of that date no material subsequent events were noted.

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION ON BUDGETARY ACCOUNTING AND CONTROL FOR THE YEAR ENDED JUNE 30, 2019

Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction, which is in accordance with generally accepted accounting principles. The legally adopted budget and budgetary expenditure control is exercised at the two-digit sub-function level in the general fund and at the function level for all other funds. Reported budget amounts are as originally adopted or as amended by the School Board resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Based upon requests from district staff, district administration recommends budget proposals to the School Board.
- The School Board prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
- A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
- Pursuant to the public budget hearing, the School Board may alter the proposed budget.
- After the School Board (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire School Board.
- Appropriations lapse at year end unless authorized as a carryover by the School Board. The portion of fund balance representing carryover appropriations is reported as a reserve of fund balance.

### SCHEDULES OF REQUIRED SUPPLEMENTARY INFORMATION FOR PENSION RELATED ITEMS FOR THE YEAR ENDED JUNE 30, 2019

### SCHEDULES OF REQUIRED SUPPLEMENTARY INFORMATION FOR PENSION RELATED ITEMS FOR THE YEAR ENDED JUNE 30, 2019

### Notes to Required Supplementary Information For the Year Ended June 30, 2019

Changes of benefit terms. There were no changes of benefit terms for any participating employer in WRS.

Changes of assumptions. Actuarial assumptions are based upon an experience study conducted in 2018 using experience from 2015-2017. Based on the experience study conducted in 2018, actuarial assumptions used to develop Total Pension Liability changed, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates.

## NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS FOR THE YEAR ENDED JUNE 30, 2019

#### NOTE 1 BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal and state awards include the federal and state grant activity of the Lodi School District and are presented on the modified accrual basis of accounting. The information in these schedules is presented in accordance with the requirements as prescribed by the Wisconsin Department of Public Instruction. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements.

#### NOTE 2 SPECIAL EDUCATION AND SCHOOL AGE PARENTS PROGRAM

2018-2019 eligible costs under the State Special Education Program are \$2,997,045.

#### NOTE 3 DE MINIMIS COST RATE

The District has elected not to use the 10% de minimis cost rate.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Lodi School District Lodi, Wisconsin

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lodi School District (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 19, 2019.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying summary of auditor's results as item 2019-001 to be a significant deficiency.

Board of Education Lodi School District Page Two

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lodi School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Lodi School District's Response to Findings

The District's responses to the findings identified in our audit are described in the accompanying summary of auditor's results. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS 611 E WISCONSIN ST PORTAGE, WISCONSIN 53901

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GRANT GUIDANCE AND THE STATE SINGLE AUDIT GUIDELINES

Board of Education Lodi School District Lodi, Wisconsin

#### Report on Compliance for Each Major Federal and State Program

We have audited the Lodi School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *State Single Audit Guidelines* that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2019. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of federal and state statutes, regulations, contracts, and the terms and conditions of its federal awards applicable to its federal programs and its state awards applicable to its state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance); Audits of States, Local Governments, and Non-Profit Organizations and the State Single Audit Guidelines. Those standards, the Uniform Guidance and the Guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Lodi School District's compliance. Board of Education Lodi School District Page Two

#### Opinion on Each Major Federal and State Program

In our opinion, the Lodi School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2019.

#### Report on Internal Control Over Compliance

Management of the Lodi School District is responsible for establishing and maintaining effective internal control over compliance with the types of requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State Single Audit Guidelines, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2019-002 that we consider to be a significant deficiency.

This District's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response. Board of Education Lodi School District Page Three

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State Single Audit Guidelines. Accordingly, this report is not suitable for any other purpose.

Identification of major state programs:

State ID Number Name of State Program

255.201 General Equalization Aid

#### Section II - Financial Statement Findings

#### Financial Statement Significant Deficiencies

2019-001 Preparation of the District's Financial Statements

- Condition: The District does not have management personnel with necessary expertise to prepare the financial statements, related notes and GASB 34 conversion entries necessary to report in accordance with generally accepted accounting principles. Due to limited resources, management has decided to accept certain risks relevant to financial reporting and relies on the auditor to assist with the preparation of the District's financial statements.
- Criteria: Internal controls over preparation of the financial statements, including footnote disclosures, should be in place to provide reasonable assurance that a misstatement in the financial statements would be prevented or detected.
- Cause: The additional cost associated with hiring staff experienced in preparation of the District's financial statements, including additional training, outweighs the derived benefits.
- Effect: Because management relies on the auditor to assist with preparation of the financial statements, the District's system of internal control may not prevent, detect or correct misstatements in the financial statements.
- Recommendation: We recommend District personnel continue reviewing the financial statements by competent staff and approve them before issuance. We will continue to work with the District, providing information and training where needed, to make the District's personnel more knowledgeable about its responsibility for the financial statements.

Management Views and Corrective Action Plan: See corrective action plan 2019-001.

### SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2019

#### Section III - State Award Findings and Questioned Costs

#### Federal and State Awards Significant Deficiencies

2019-002 Financial Reporting for Federal and State Assistance

- Conditions: The Uniform Guidance and the State Single Audit Guidelines requires the District to prepare appropriate financial statements, including the schedules of expenditures of federal awards. While the current staff of the District maintains financial records supporting amounts reported in the schedules of expenditures of federal awards, the District contracts with its auditor to compile the data from these records and prepare the single audit report for the District.
- Criteria: Having staff with expertise in federal reporting to prepare the District's single audit report is an internal control intended to prevent, detect and correct a potential misstatement in the schedules of expenditures of federal awards, or accompanying notes to the schedule.
- Cause: The additional cost associated with hiring staff sufficiently experienced to prepare the District's single audit report, including the additional training time, outweigh the derived benefits.
- Effect: Because management relies on its auditor to assist with the preparation of the financial statements, including single audit reports, the District's system of internal control may not prevent, detect or correct misstatements in these financial statements.
- Recommendation: We recommend District personnel continue reviewing the District's single audit report prepared by its auditor. While it may not be cost beneficial to hire additional staff to prepare these items, a thorough review of this information by appropriate staff of the District is necessary to ensure all federal programs are properly reported in the District's single audit report.

Management Views and Corrective Action Plan: See corrective action plan 2019-002.

## CORRECTIVE ACTION PLAN FOR THE YEAR ENDED JUNE 30, 2019

Wisconsin Department of Public Instruction

The Lodi School District respectively submits the following corrective action plan for the year ended June 30, 2019.

Name and address of independent public accounting firm:

Miller, Brussell, Ebben and Glaeske, LLC. 611 East Wisconsin Street Portage, WI 53901

Audit period - June 30, 2019

The findings from the June 30, 2019 schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

## **Findings-Financial Statement Audit**

## Significant Deficiency 2019-001 Preparation of the District's Financial Statements

Management Views – Management agrees with the finding and the recommendation.

Corrective Action Planned – Management and the Board will continue to designate competent staff to oversee and review the financial reports and approve them before issuance. However, it is not feasible or cost effective to add staff with the competence to prepare these reports.

Anticipated Completion Date - This action will be ongoing.

## Findings-State Awards Program Audits

## Significant Deficiency 2019-002 Financial Reporting for Federal and State Assistance

Management Views – Management agrees with the finding and the recommendation.

Corrective Action Planned - Management and the Board will continue to designate competent staff to oversee and review the financial reports and approve them before issuance. However, it is not feasible or cost effective to add staff with the competence to prepare these reports.

Anticipated Completion Date - This action will be ongoing.

If the Wisconsin Department of Public Instruction has questions regarding the plan, please contact Brent Richter at 608-592-3851 or e-mail <u>richtbr@lodischoolswi.org</u>.

Sincerely yours,

Brent Richter Business Manager

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS YEAR ENDED JUNE 30, 2019

#### 2018-001 Segregation of Duties

- Condition: The size of the office staff precludes a proper segregation of functions to assure adequate internal control.
- Recommendations: This is not unusual for Districts your size, but the Board of Education and management should continue to be aware of this condition and to realize that the concentration of duties and for the effective system of internal control. Under these conditions, the most effective controls lie in the Board of Education's and management's knowledge of matters relating to the District's operations.
- Current Status: Management and the Board have made changes to their processes to adequately segregate duties between individuals. The District segregates duties between the business manager, accounts payable manager, payroll and human resources director, and others. They have also streamlined many processes to be done electronically through their software eliminating the amount of duties to one individual. Therefore, this significant deficiency can be eliminated.

2018-002 Preparation of the District's Financial Statements

- Condition: The District does not have management personnel with necessary expertise to prepare the financial statements, related notes and GASB 34 conversion entries necessary to report in accordance with generally accepted accounting principles. Due to limited resources, management has decided to accept certain risks relevant to financial reporting and relies on the auditor to assist with preparation of the District's financial statements.
- Recommendations: We recommended District personnel continue reviewing the financial statements by competent staff and approve them before issuance. We will continue to work with the District providing information and training where needed, to make the District's personnel more knowledgeable about its responsibility for the financial statements.
- Current Status: Management and the Board continue to believe that cost to hire additional staff to eliminate the control deficiency outweighs the benefits to be received. Competent staff will continue to be designated to oversee and review the financial reports and approve them before issuance.
