

Fairfield College Preparatory School

A Jesuit, Catholic School of Excellence

As we look towards the beginning of the 2020 – 2021 school year, Fairfield Prep is asking all students to prepare an introductory assignment that can be submitted to a student's set of teachers during the first week of classes. The purpose of this assignment is for the student to have an opportunity to introduce himself to his teachers.

Students are asked to write a one-page reflection, create a one-minute video or podcast, or create a six-to-eight slide Keynote or PowerPoint presentation that reflects on the questions below. Students should be prepared to submit this assignment to their teachers during the first week of classes.

- Where you are from
- What club / team / organization(s) you are a part of at Prep or outside of Prep
- What goals you would like to accomplish by the end of the year
- What you are looking forward to this year
- What activities you enjoy doing outside school
- What your strengths and weaknesses as a student are
- What your experience with virtual learning was last spring
- What you want your teachers to know about you
