

The Pike School
Student Web-Based Applications & Online Learning
Livestreaming and Recording Authorization Form

Student Name:

Date of Birth:

Grade:

The Pike School (“Pike” or the “School”) incorporates educational, web-based computer applications and online learning programs in its curriculum and student activities. Pike’s online learning programs may consist of entirely remote learning, in which students participate online, or where some students participate in-class while other students participate online. The School expects students to participate in both programs in a manner similar to how they would for in-person classes. The School may choose classes and activities for a variety of operational reasons, such as ensuring that students have access to the School’s online learning programs. However, no member of the school community, including a parent or student, is permitted to share, record, broadcast, or make public any materials created or recorded by Pike, its employees, or other students in relation to the School’s online or remote learning programs without the School prior authorization. Families may also contact Pike’s Director of Technology for more information or with any questions about these applications and programs.

As the parent/legal guardian of the above-identified student (the “Student”), I authorize the Student to use Pike’s web-based computer applications in connection, and consistent with, the School’s curriculum and student activities.

I authorize and consent to the livestreaming and recording of any remote or on campus learning interactions between the Student and Pike, its employees, and other students. This consent applies in any context, including but not limited to, both group and one-on-one contexts. I understand that such livestreams or recordings may include situations in which the Student is livestreamed or recorded on or off campus.

If I do not consent to the use of the web-based computer applications and/or the livestreaming and recording of any learning programs involving the Student, I agree to notify the The Director of Technology in writing prior to the first day of school. I understand that a decision to not allow the Student to use these applications and/or to be livestreamed and recorded will seriously impact the Student’s ability to participate in the School’s programs and activities, including engaging in remote and on campus learning.

I understand that this form may be electronically signed, and by indicating my assent below, I am agreeing to the use of electronic signatures. I understand and agree that my electronic signature will have the same legal effect and validity as a written signature and that this form is valid and will be given the same legal effect as a written and signed form. I understand that I can withdraw my assent to electronic signatures at any time.
