Meet Our SPED Service Providers

Mrs. Rush is the school psychologist for preschool and the district’s behavior analyst (BCBA). She provides support to both students and staff at Anza.

Ms. Kinsella has been a speech Pathologist in Wiseburn since 2003 and has watched our Anza community grow in so many amazing ways. She is passionate about improving children’s communication skills and giving every child a voice.

Mrs. Lonergan is our ELD (English Language Development) teacher.

She meets with her students daily to provide English language development support.

In addition, teachers provide integrated ELD opportunities in the general classroom setting.
School Psychologists are members of our school’s team that support students’ ability to learn and teachers’ ability to teach.

- They apply expertise in mental health, learning, and behavior, to help children and youth succeed academically, socially, behaviorally, and emotionally.
- School psychologists partner with families, teachers, school administrators, and other professionals to create safe, healthy, and supportive learning environments that strengthen connections between home, school, and the community.

Fitness Time with Coach Shakstad!

- Every week your student will have a “Fitness Time!” workout via SchoolsPLP as a recorded video.
- TK–2 students will have 1 “Fitness Time” per week. Each workout is 15–25 minutes in length.
- The purpose of “Fitness Time” is to provide a fun and engaging fitness lesson, tailored for students and families at home. No equipment is needed other than a small area to perform exercise movements.
- We encourage the entire family to complete “Fitness Time” workouts together each week!
Every week (generally on Mondays), your student will get a “Science with Mrs. Michael” lesson via SchoolsPLP as a Google Slides presentation. This is a lesson and activity that can be completed independently, but could also be done as a family.

➢ Every lesson is NGSS (Next Generation Science Standards)–aligned, and will be about 30–45 minutes in length
➢ No special supplies needed (other than paper, pencil, scissors, tape, etc), but many lessons will have “extensions” at the end if your student wants to explore deeper on the concept
➢ 4th and 5th grade will have assessments throughout the year, while TK–3 will have a “work habit” grade

Parent Tips for Distance Learning Success

**MAKE SPACE FOR LEARNING**

Your child will achieve their best in a quiet, comfortable, dedicated space devoted to learning. Ideally, this would be a different space than where they normally play games or watch television.

**SET CLEAR EXPECTATIONS**

Build time into remote work day to assist with student’s learning. Consider building in “office hours” into your schedule.

**CREATE A ROUTINE**

Create a daily schedule with your child’s input. Post the schedule in a visible place.

**MAKE FREQUENT BREAKS**

Make sure your children take plenty of breaks from computers in order to get away from screens.

**GIVE YOUR CHILD CHOICES**

After you’ve developed a schedule with your child’s input, work in ways to give your child some confidence and control—within reason.

**CELEBRATE THE VICTORIES**

New routines are not easy! Celebrate the successes that you are having.
Growth Mindset Starts at Home

1. Language is key! Praise the process.
2. Understand the power of “YET”.
3. Grow your brain, it’s a muscle!
4. Accept mistakes as learning opportunities.
5. Understand the role of emotions in learning.
Family & Caregiver Support

For all children, the parent is the primary educator. In order to best serve the needs of all children during distance learning and hybrid learning scenarios, we ask for the support of parents in creating a meaningful year of learning for all students. For this reason, we ask that all parents/families adhere to the following guidelines:

- Follow the set learning schedule set by teacher/school
- Provide a quiet learning environment for all students
- Read and respond to all emails and/or outreach by school personnel
- Monitor student appropriate use of technology
- Monitor student assignments, activities
- Stay current with student outcomes on assignments and assessments

In addition, parents should remain in contact with their child’s teacher to ensure continuity of learning and that their children are prepared at the end of the 2020–2021 school year for their next grade level.
