In all cases contact Suzanne Murray, RN at 469-232-1832

## What if...

### **My child has symptoms of COVID-19 but has not been lab confirmed.**

- ✓ Please consult your primary care physician
- ✓ Follow the protocol for Person A for the sick child.
- ✓ Siblings who attend Jesuit should follow the protocol for Person B.

### **My child has had close personal contact with someone who has tested positive for COVID-19.**

- ✓ Follow the protocol for Person C if that contact does not live in the same household and /or there is no further contact with them. If the contact lives in the same household, follow the protocol for Person B.

### **My child has tested positive for COVID-19 (with or without symptoms).**

- ✓ Follow the protocol for Person A for the sick child.
- ✓ Siblings who attend Jesuit should follow the protocol for Person B.

### **My child had COVID-19 symptoms, but the pediatrician diagnosed my child with another illness and not COVID-19.**

- ✓ Keep your child at home until he is fever-free for at least 24 hours without fever-reducing medication and his symptoms have improved.
- ✓ A medical professional's note with an alternative diagnosis **OR** proof of a negative PCR test result for COVID-19 will be required to return to school based on an alternative diagnosis if it is less than 10 days after the symptoms first appeared.

### **My child has one or more of the common symptoms of COVID-19 but has tested negative for COVID-19 and has not been diagnosed with another illness by their primary care physician.**

- ✓ Follow the protocol for Person A for the sick child.
- ✓ Siblings who attend Jesuit should follow the protocol for Person B.

### **My child has an underlying medical condition that puts them in the special risk categories for COVID-19.**

- ✓ Follow the advice of your primary care provider and inform the Student Affairs if the doctor's advice is to keep your child home.

### **My child is well, but someone else in the household has one or more of the common symptoms of COVID-19.**

- ✓ Follow the protocol for Person B.

### **My child tested positive with COVID-19 within the 3 months leading up to close contact exposure, recovered from COVID-19, and remains without COVID-19 symptoms.**

- ✓ Child does not need to complete 14 day quarantine.
