

NORTHERN RAIL DISCOUNT ON SEASON TICKETS

Northern Rail is offering our parents discount on their child's season ticket for the forthcoming academic year. Below is more information about the offer and how to take up this offer.

Every parent worries about getting the correct fare together every morning. They have concerns about their child losing the money or spending it on something else and being left short for the journey home. The **EDUCATIONAL SEASON TICKET** helps to calm those worries and what's more, if your child loses their season ticket they'll replace it. The season ticket carries no restrictions, which means that your child can travel worry free during evenings and weekend too. The ticket is available from the following stations; Hexham, Corbridge, Riding Mill, Stocksfield, Prudoe, Wylam, Blaydon, Metrocentre & Dunston to Newcastle.

Northern is committed to making sure that all passengers can travel safely on their trains. From September Northern will be running more trains and increasing the number of services. Their trains and stations are being cleaned daily and the company is using industry leading products, such as Zoono, that provides up to 30 days protection against Covid-19. In addition, Northern will need your help to ensure your child is wearing a facemask when they travel (unless they are exempt).

This fantastic 50% discount is only available to purchase until **30th of September 2020**. To make it even easier (and safer) for parents/guardians, Northern has simplified the process so that tickets can be ordered online form without the need to visit a local station. Please visit www.northernrailway.co.uk/educational-season and complete the form. Your order will then be processed quickly and efficiently and the ticket(s) posted out in time for the start of the new school year.
