

*Exploring the World of Science*

## What is science Olympiad?

- Promotes STEM by giving students an opportunity to compete in 23 different events in the areas of biology, physics, chemistry, earth and space science, tech and engineering, and experimental design.

## Who can join the team?

- **Anyone!** Competing in Science Olympiad is open to anyone with an interest in STEM!

### If you...

- have an interest/aptitude in science, math, engineering, or problem-solving
- want to apply your knowledge and skills on these areas through fun, competitive events
- want to gain transferable skills that will help you throughout life (ex. team-building, research, critical thinking)

...then SCIENCE OLYMPIAD IS THE CLUB FOR YOU!

If you are interested in being on the Science Olympiad team, select Science Olympiad on the clubs form to receive more information!

## Key Information

- Team will compete in local invitationals (Nov-Jan) and regionals (Feb), with the possibility of advancing to state (Mar)/nationals (May)
- All competitions will be virtual this year, along with our practices
- There will be mandatory weekly study/practice sessions (via Teams) for each event beginning Sept; team members must attend these for each event they have signed up for.
- **TEAMWORK IS CENTRAL** in SciOly as most events are team-based with only the exception of written test-based events.
