

## Privacy Information for Classroom Applications and Services Used at Grand Rapids Christian Schools

Some apps and services we use in school will require students to have accounts to sign in. When they do, the app might collect user data. Parent permission is required for students under the age of 13 to use such accounts. You provided your consent to this as a step in the online verification enrollment process.

The list below contains the apps or services that at least some of our teachers use in the classroom. Note that your child’s teachers might not use every app on the list. You are welcome to contact your child’s teachers to confirm which apps they do use in the classroom. Each app listed is linked to their privacy policy if you would like to read the information about how student data might be used.
