Fully Licensed Psychologist - 112 Telemedicine – C4S

Telehealth is modality of service using telecommunications and information technologies.

GT: Telehealth services provided “via interactive audio and video telecommunications systems”

AO: Telehealth services provided “via interactive audio telecommunications systems ONLY”

SERVICE DETAIL (DAILY):

1. Describe what actually occurred on the date of service. Ensure that the Service Detail Note (daily note) is sufficiently detailed to allow reconstruction of what transpired for each service billed.
2. Indicate the result of the therapy session (student’s response).

Example of Service Note Detail: Group Therapy (90853:GT) – Group focused on starting “My Calm Down Book” and identified various facial expressions to determine the mood. Student did a self-portrait of his face when angry, then lost focus and was disruptive and disrespectful to his peers.

***Add to your note “Services were provided (location of service) during the COVID-10 shutdown”**

MONTHLY SUMMARY (PROGRESS) NOTES:

1. Summarize (evaluate) the student’s monthly progress toward your medical/health related goal.
2. Include any changes in medical/mental status and changes in treatment with rationale for change.
3. Service Detail (Daily) Notes and Monthly (Progress) Summary Notes must not match.

Example of Summary Note: Student is making limited progress with improving his ability to follow directions and interact with peers appropriately. Will continue to address his goals toward appropriate peer behavior.

RECORD KEEPING: Keep copies of all supporting documentation related to this service for a period of 8 years (FY+7) regardless of change in ownership or termination of participation in Medicaid.
