Biography

Hello! My name is Yaquelin Magana. This is my 14th year teaching math at STPA. Math has always been my favorite subject and I am very happy to share my love for math with your child. I graduated from UTPA in May 2005. I currently live in McAllen with my husband, Carlos, and three beautiful daughters Jackie, Emily and Sofia. I enjoy taking long morning walks around the lake with my husband, evening family bike rides, and spending Sunday evenings visiting my mom.
